

DISCLAIMER: These Standard Operating Procedures (SOP's) are for the exclusive use of Navy Public Works Center (PWC) Norfolk. They are promulgated as guidance for their NAVFAC Commands. If intended to be used by other activities, they must be tailored to each activity's particular requirements and must be reviewed/approved by the activity's safety professionals prior to use.

Standard Operating Procedure
Platform Lift Operation

Safety Equipment Required:

Gloves
Safety glasses
Safety shoes
Hard hat
Safety harness

Equipment required:

JLG sizzor
Control box

This equipment may be operated only by personnel trained and licensed in it's safe operation.

PROCEDURE

Preliminary

1. Check out control box and key from the supervisor.
2. Review safety precautions in Operators Manual.
3. Perform Daily Walk-around Inspection per section 2-4 in Operators Manual.
4. Perform Daily Functional Checks per section 2-5 in Operators Manual.
5. Follow the Daily Safety checklist mounted on the platform.
6. Wear safety harness while on platform.
7. Check to ensure the Safety Inspection is current.

Towing

8. To tow the platform to or from the job site follow the procedure in section 6 of the Operators Manual. Ensure the hubs are unlocked.

Operation

9. For moving and working from platform follow the procedure in section 4 of Operators Manual.
10. Clean up the job site and remove all debris from the platform.
