

**Membership Application
VIEQUES RESTORATION ADVISORY BOARD**

Please complete and sign this form if you would like to be considered for membership on the Restoration Advisory Board (RAB) for Vieques.

- RAB members will be expected to attend regular meetings without compensation.
- The RAB will be comprised of members with a variety of perspectives and interests. RAB members will be expected to respect differences of opinion to work constructively with other RAB members, visitors, and agency/contractor staff.
- RAB members should be willing to communicate with local community members and groups who are interested in specific cleanup activities.
- RAB members will receive information about environmental cleanup activities. Members will have the opportunity to review draft-final documents (outside of RAB meetings) and to provide feedback and/or questions to the Navy and regulators (during RAB meetings).

If you have any questions or need help completing this application, please contact Kevin Cloe at Kevin.cloe@navy.mil (English) or Maria Danois Maria.danois@navy.mil (Spanish)

The personal information requested on this form is being collected to determine qualification for membership on the Vieques Restoration Advisory Board and to allow the Navy to communicate with you. The information will be retained in a file at Naval Facilities Engineering Command (NAVFAC) Atlantic in Norfolk, Virginia.

This information will not be published. Providing information on this form is voluntary.

RAB Appointment Process

The Commander, Atlantic Division, Naval Facilities Engineering Command (or his acting agent), may appoint up to additional 15 local community members who represent the diverse interests of the Vieques community. If more than 15 applications are received, a community-based selection panel will review the applications and nominate up to 15 community members for the Commander’s approval. The RAB will provide a forum for the Navy, regulators and community members to share information and to support an effective and efficient cleanup of environmental contamination resulting from past operations and waste disposal practices on Vieques.
