

## OFF-BASE DRINKING WATER SAMPLING NEAR MARINE CORPS AIR STATION BEAUFORT

The Navy and Marine Corps are conducting a second round of drinking water well sampling near MCAS Beaufort. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in these drinking water wells due to use of firefighting foam or other PFAS-containing materials on base. Our records review indicates that your property is located within the sampling area and that you have not scheduled an appointment to have your drinking water well sampled. If you have scheduled an appointment, please disregard this notice.

The Navy and Marine Corps would like permission to sample your drinking water well at no cost to you. Additional drinking water sampling appointments are being scheduled for **February 2 - 4, 2023**. You may schedule a sampling appointment by calling **800-818-8455** and leaving a message with your name, property address, and telephone number. If your drinking water is provided by BJWSA, we do not need to sample your water. If your drinking water is provided by BJWSA, or if you do not have a drinking water well, please call **800-818-8455** to let us know so that we can update our records.

We are committed to keeping the public informed of the Navy and Marine Corps' off-base drinking water sampling. To view the sampling area, and for more information, please visit our website at: <http://go.usa.gov/xJgYA>.
