Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Site Description:

Location: The Navy's Calverton facility is located in Suffolk County on Long Island, approximately 70 miles east of New York City. Site Features: Prior to 1990's, the facility consisted of approximately 3,000 acres located within a security fence and 3,000 acres of buffer property located outside the security fence. Since 1998, the majority of the property within the perimeter fence has been conveyed to the Town of Riverhead, NYSDEC and the Veterans Administration. The Navy retains three non-contiguous parcels (Parcels A and B and Parcel C) totaling approximately 209 acres to continue environmental investigation and remedial activities at Sites 2, 6A, 7, 10B, and the Southern Area. Historic Uses: Formerly engaged in the manufacture of aircraft parts and subassemblies, the Calverton facility has phased out all of its manufacturing process operations, and the former operator of the facility, the Northrop Grumman Corporation, vacated the property in February 1996. Current Zoning/Uses: The land surrounding the Calverton facility in all directions is primarily agricultural or wooded, with scattered residences and commercial establishments. Site structures formerly utilized by Grumman and the Navy are currently occupied by various tenants engaged in commercial and light industrial endeavors. Operable Units: The site was divided into five operable units. An operable unit represents a portion of a remedial program for a site that for technical or administrative reasons can be addressed separately to investigate, eliminate or mitigate a release, threat of release or exposure pathway resulting from the site contamination. The 5 Operable Units are: Operable Unit 1 (OU1) - the Northeast Pond Area (Site 1) Operable Unit 2 (OU2) - the Jet Fuel Depot (Site 7) and the Jet Fuel Systems Laboratory (Site 10A) Operable Unit 3 (OU3) - the source contamination in the groundwater at the Fuel Calibration Area (Site 6A), the Engine Test House (Site 10B), the Southern Area (both on-site and off-site) Operable Unit 4 (OU4) - the Fire Rescue Training Area Operable Unit 5 (OU5) - the source contamination in the soil at the Fuel Calibration Area (Site 6A), the Engine Test House (Site 10B) and the Southern Area Site Geology and Hydrogeology: NWIRP Calverton is underlain by approximately 1,300 feet of unconsolidated sediments consisting of four distinct geologic units. These units, in descending order, are the Upper Glacial Formation, the Magothy Formation, the Raritan Clay Member of the Raritan Formation, and the Lloyd Sand Member of the Raritan Formation. The glacial sediments beneath the facility have a maximum thickness of approximately 250 feet and consist of both glacial till and outwash deposits. The Plume is found primarily in the upper glacial aquifer, extending down to clay which may be part of the Magothy formation. NWIRP Calverton saddles a regional groundwater divide, with groundwater in the northern half of the

facility flowing to the northeast and groundwater in the southern half of the facility flowing to the southeast towards the Peconic River.

Env Problem: OU1 Northeast Pond Area - Remedial work on this site has been completed, Unrestricted Soil Cleanup Objectives (SCO) and state groundwater standard were met. Site ownership has been transferred to town. OU2 Site 7 - Fuel Depot - Constructed in 1953 to supply aircraft fuel, gasoline and diesel fuel for NWIRP operations. All the underground storage tanks have been removed. A Record of Decision (ROD) was issued and approved by the United States Navy, with concurrence by NYSDEC and NYSDOH. A full Scale Air Sparging/Soil Vapor Extraction Construction Work Plan was approved on December 12, 2005. The construction was completed and operation began in 2006. Site 10A - Jet Fuel Systems Laboratory - Used for testing fuels and fuel systems. In addition to the Laboratory building there was an area behind the northwestern corner of the building, where several underground storage tanks were removed. Contamination at this site includes VOCs and petroleum products. In 1993 Northrop Grumman initiated floating free product (jet fuel) recovery from the water table, which continued until early 1996. OU3 Site 6A - Fuel Calibration Area, / Site 10B - Engine Test House - Starting in 1956, the fuel calibration area was used for testing of aircraft engine and fuel systems. The area consists of a cinder block building and associated fuel tanks. The entire complex was replaced in 1980 by the new fuel calibration area. As many as 230 gallons of fuel are recorded to have been spilled in these areas. Groundwater contaminants found included a free product layer and contaminated groundwater containing fuel-type and chlorinated VOCs. The chlorinated VOCs are believed to be from unreported spills of solvents used to clean the aircraft engines and fuel systems. A groundwater recovery unit was installed in 1987. This unit included a pumping well, an oil recovery well and an oil/water separator tank. Active Groundwater and free product extraction continued until 1993. Passive product recovery completed the removal. Groundwater migrating from the OU3 source area has been documented. Levels of VOCs including DCA exceed the 5ppm level in the plume. An active groundwater extraction and treatment remedial system has been constructed at Navy property's Fence. The system is currently operating. OU4 Site 2 - Fire Rescue Training Area - This 11 acre training area was used to simulate plane crashes. From 1955 to 1984, 450 gallons of waste solvents per year were used in the training exercises. Additional solvents and fuel oil were accidentally spilled in 1982. Floating free product was removed from the wells and the site was partially remediated through air sparging in 1998. Fire Training Area - The Navy removed the concrete fire training ring and contaminated soil that may exist above or below the ring as an interim corrective measure during 2009. OU5 Fuel Calibration Area (Site 6A), Engine Test House (Site 10B) and Southern Area Sources. Navy had excavated and removed contaminated soil from the Fuel Calibration Area (Site 6A) and Engine Test House (Site 10B).

Health Problem: On-site production wells used for potable water that are contaminated above drinking water standards are currently being treated. No other water supplies are known to be impacted by the site. The site is fenced and there is little potential for trespassing by unauthorized personnel; therefore, public exposures are not likely. Analytical data from close-out investigations will be reviewed prior to de-listing or site use changes to evaluate the potential for human

Spiller Address: Not reported
Spiller Company: 999
Contact Name: KIRK ALFARO
DEC Memo: "04/22/11 1050 Hrs (A): Mr Alfaro called to report the incident. [He indicated he had a court case pending with the landlord but did not give specifics?] 04/22/11 1050 Hrs (B): SPILLS ADVISED HIM THAT THE TOWN MIGHT HAVE THE MOST JURISDICTION IN THIS MATTER, AS THIS MIGHT BE AN ILLEGAL ACTIVITY UNDER THEIR CODE. 04/22/11 1050 Hrs (C): Alfaro said he had been in touch with the Town 'to no avail'. Spills advised him to call the Town again. 04/22/11 1050 Hrs (D): Spills informed him that we would generate a report, and that a supervisor would review the report to determine whether we would investigate the matter at this time. 04/22/22 1050 Hrs (E): Spills also informed Alfaro that he could call the ECOs and they might be able to issue ticket(s) for any ECL violations, but they probably could not stop the activity causing the problem [ie operating a business from a residence]. DR"
Remarks: "THE CALLER SAYS HIS LANDLORD RUNS A MECHANICAL SHOP OUT OF THIS RESIDENCE. VEHICLES AND AUTOMOTIVE FLUIDS ARE STORED ON SITE, AND SOME OF THE FLUIDS HAVE SPILLED. THE ACTIVITY ALSO CREATES ODORS, WHICH THE CALLER IS CONCERNED ABOUT BECAUSE HIS GIRLFRIEND IS PREGNANT. (DR)"

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

FINDS:

Registry ID: 110004325668

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

HE SAID THERE WAS 1GAL OF THE TRIMEC, 56 OUNCES OF ACCLAIM, AND THE REST WAS WATER. HE SUPPLIED THE MATERIAL SAFETY DATA SHEETS FOR THE HERBICIDES. 08/09/04 1315-1350 Hrs (C): AS PER CALLAGY- THE SPILLAGE WAS ONLY ON THE ROADWAY. THEY HAD NOTIFIED THE RIVERHEAD TOWN FIRE MARSHAL, WHO RESPONDED AND APPLIED SPEEDI DRI. 08/09/04 1315-1350 Hrs (D): DEC inspected the area of spillage- THE ACTUAL LOCATION WAS ON MOHICAN WAY AT ALEXANDER HAMILTON BOULEVARD. 08/09/04 1315-1350 Hrs (E): The spillage had run downhill approximately 40ft, the crossed the road AND IMPACTED A SMALL AMOUNT OF SOIL. There was a drain on Hamilton, but it was not impacted. DEC directed Calverton to dig up the impacted soil, then left the site. DR 08/09/04 1430-1500 Hrs (A): DEC returned to reinspect the site, and confirmed that the impacted soil had been dug up. 08/09/04 1430-1500 Hrs (B): DEC then discussed the proper disposal arrangements for PESTICIDE-CONTAMINATED soil, advised Calverton that this might require testing, and that they could contact Katy Murphy (DEC Solid/Hazardous Materials) for further guidance. DR 08/10/04 0935 Hrs: Callagy left message that Murphy was off, so he would speak to Miller Environmental. DR 08/11/04 1030 Hrs: Left message for Callagy. DR 07/12/05 1525 Hrs: Left message for Callagy requesting the disposal receipts. DR 07/12/05 1608 Hrs: Received faxed disposal receipts- American Hazardous Materials Management of Middle Island disposed of the waste. DR"
Remarks: "tank leaked about 70 gal mixture trimec encore(1 gal) and acclaim extra (56 oz). Spill to roadway, no drains. Speedy dry was put down. Callagy also called FD to respond. Contents of leaking tank transferred to antoher sprayer."

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also

Remarks: was possible Spills might give permission to restore the area based on what Eastern reported. DR 09/21/12 1015 Hrs: Wade emailed 6 photographs to Spills. DR 09/21/12 1020 Hrs (A): Called Flynn- he said Sky OVEREXCAVATED the area, and generated approximately 8cy of soil. He said there was no evidence of contaminated soil at the bottom of the excavation, but that either Eastern or Sky would take photographs to document the cleanup. 09/21/12 1020 Hrs (B): DEC informed Flynn the case was unassigned, directed him to forward the soil disposal receipts to DR in order to close the case, and informed him the area could be restored and the equipment moved back. DR 9/21/12 FILE REASSIGNED DEC DID NOT RECEIVE EASTERN'S REPORT. BASED UPON THE ABOVE INFORMATION, NO FURTHER CLEANUP REQUIRED. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 44

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 10

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

TOSINI SERVICE STATION (Continued)

S104516381

[***SITE IS NEAR PECONIC RIVER***] 01/24/00 (B): ***OPERATOR IS JOE TUSCINI [AS PER FILE; CORRECT SPELLING IS APPARENTLY TOSINI]***
11/10/00: DEC (Haas) letter to Tosini- have not received any additional info from Tyree or yourself. Requested subsurface investigation plan by 21Dec00. Gave scenario for failure to comply.
12/15/00 (A): Tyree proposal- approx 320 TONS of contaminated soil was removed during the installation of the THREE new tanks. 12/15/00 (B): Depth To Water is approx 6ft; groundwater flow direction is south. 12/15/00 (C): Will perform 9 Geoprobe borings with soil and groundwater sampling. Will analyze for volatile organics via EPA 8021. 12/15/00 (D): Will then perform additional borings as required to delineate the plume. 12/15/00 (E): Enclose sketch showing location of former tanks and proposed boring locations. 12/18/00 (A): Haas letter to Tosini, cc Tyree- approved sampling plan with conditions (confirm groundwater flow direction; mandates delineation of plume). Submit report by 22Mar01. 12/18/00 (B): Also requested copy of the soil disposal receipts. 07/03/01 (A): Haas letter to Tosini, cc Tyree- have not received the report nor the soil disposal receipts requested 18Dec00. 07/03/01 (B): ***THEREFORE, DEC WILL TAKE OVER THE CLEANUP, AND SEEK REIMBURSEMENT OF ALL COSTS PLUS PENALTIES.***
08/27/01: Haas letter to Tosini- please sign and return access form. SEPT01: DEC HIRED MILLER ENV TO PERFORM SUBSURFACE INVESTIGATION.
09/25/01 ***AS PER TYREE (A)***: TOSINI HAS ARRANGED WITH THEM TO PERFORM THE WORK. TYREE IS AWAITING A SIGNED CONTRACT. 09/25/01 ***AS PER TYREE (B)***: TOSINI SAID HE NEVER RECEIVED DEC'S LETTERS. THE STATION (TO WHICH THEY WERE MAILED) NEVER FORWARDED THE LETTERS. 09/25/01 ***AS PER TYREE (C)***: PROVIDED CORRECT MAILING ADDRESS FOR TOSINI. 09/26/01: Haas reply to Tyree- disputed Tosini's position, and cited various reasons such as Tyree's own involvement. 09/26/01: Miller Env installed 6 temporary 1 wells and took groundwater measurements [***SEE 27MAR02 REPORT***]. 09/28/01: Tyree reply to Haas- Tyree assumed Tosini had hired another contractor. *** IT TURNS OUT HIS OFFICE CHANGED LOCATIONS... *** Tyree has advised Tosini to discuss his resuming responsibility for the cleanup with DEC.
10/18/01 ***AS PER MILLER***: TOSINI'S LAWYER (MR COHEN) MAY CALL DEC TO DISCUSS TOSINI RESUMING RESPONSIBILITY FOR THE CLEANUP. OCT01: Miller Env performed 19 Geoprobe borings and took 66 groundwater samples [***SEE 27MAR02 REPORT***]. 10/25/01: Miller Env took soil samples downgradient of the former tank bed [***SEE 27MAR02 REPORT***]. 01/14/02 ***COHEN LETTER TO ATTORNEY GENERAL'S OFFICE: ENCLOSED CHECK TO REIMBURSE STATE FOR ITS COSTS.*** 03/27/02 (A): Miller Env Subsurface Investigation Report- ***SITE CURRENTLY OPERATING AS A HESS STATION*** 03/27/02 (B): Based upon the results of the investigation, Miller installed 6 nested wells [several wells side by side, each screened at different depths] and sampled same. 03/27/02 (C): Recommend quarterly dissolved product sampling; further investigation of the extent of the soil contamination; etc. 03/27/02 (D): Includes summary of work performed; site map showing well locations; site map showing soil boring locations; groundwater map; plume map; data; etc. 06/25/02: Haas to Miller Env- PRP IS APPARENTLY READY TO PROCEED. 06/25/02: ***LETTER FROM COHEN- JJM REALTY IS PREPARED TO TAKE OVER THE WORK... *** They will submit a work plan by 3Jul02. 07/02/02: Cohen letter- Their consultant (National Environmental Management Associates) proposes to monitor the wells monthly for floating product; sample them quarterly for dissolved product; perform additional Geoprobe soil sampling in one area of concern to further delineate the contamination there. 07/08/02 (A):

DEC Memo: "06/06/17 1515 Hrs (A): Called Yanuck- he said Neptune overfilled a truck. 06/06/17 1515 Hrs (B): The fuel spilled onto asphalt, but it was in very poor condition. When he inspected the site, he found staining to the base material and soil underneath the actual asphalt. In addition, a drywell 'might have been impacted.' 06/06/17 1515 Hrs (C): Laurel will return to cut out the asphalt, excavate any impacted soil, and further inspect the drywell. 06/06/17 1515 Hrs (D): DEC directed Yanuck to call back tomorrow with an update and to determine whether an inspector had been assigned to the case. DR 07/31/2017: Laurel initially removed 3000 pounds of impacted asphalt and soil. An additional 15 yards of contaminated soils were removed from the dry well after. No further action required. TC"

DEC Memo: "Prior to Sept, 2004 data translation this spill Lead_DEC Field was ACAMPORA 11-12-97 11:43: ACAMPORA REC'D RADIO CALL FOR RESPONSE. EN-ROUTE 12:27: ACAMPORA ON SITE. MET WITH SCPD; MANORVILLE F.D.; VEHICLE DRIVER. AS PER DRIVER, HE FELL ASLEEP WHILE DRIVING WESTBOUND ON THE LONG ISLAND EXPRESSWAY APPROXIMATELY 1 MILE EAST OF EXIT 70. AS A RESULT, THE VEHICLE VEERED OFF THE ROAD, ONTO THE GRASS SHOULDER AND INTO THE ADJACENT WOODED AREA. THE SADDLE TANK AND THE CROSS OVER PIPE WERE DAMAGED WHEN THE VEHICLE ENTERED THE TREE LINE, CAUSING DIESEL FUEL TO SPILL ONTO THE GROUND. A PASSING MOTORIST OBSERVED THE INCIDENT AND CALLED THE SCPD WHO RESPONDED AND ALSO NOTIFIED THE LOCAL FIRE DEPARTMENT. UPON ARRIVAL, THE FIRE DEPARTMENT STOPPED THE LEAK OF PRODUCT BY FORCING A SMALL BRANCH INTO THE DAMAGED SECTION OF THE TANK. ACAMPORA INTERVIEWED THE DRIVER AND SCPD OFFICER WHO PROVIDED THE DETAILS ON THE VEHICLE AND THE OWNER/OPERATOR. ACAMPORA CONTACTED THE STONY BROOK SPILL OFFICE VIA RADIO AND REQUESTED THAT LANDLINE BE MADE TO THE POTENTIAL R.P. IN ORDER TO PROVIDE THEM WITH A CONTRACTORS LIST AND INFORMATION REGARDING RESPONSIBILITY. 13:34: STONY BROOK MADE CONTACT TO THE COMPANY OWNER VIA PAGER AND ADVISED OF HIS RESPONSIBILITY, ALSO SENT HIM A CONTRACTORS LIST AND A 30 MINUTE DEADLINE. 13:47: STONY BROOK REC'D CALL FROM A PRINCIPAL WITH THE COMPANY. HE INDICATED THAT HE DID NOT HAVE AUTHORIZATION TO HIRE A CONTRACTOR AND HE INDICATED THAT THE STATE SHOULD PROCEED WITH THE REQUIRED WORK. 13:50: VEHICLE REMOVED FROM SITE VIA TOW TRUCK. 13:51: ACAMPORA DETERMINED THAT CLEAN-UP CAN COMMENCE FOLLOWING DAY. MARKED AREA WITH CAUTION TAPE. SITE SECURE. WILL RETURN TOMORROW. MILLER ENVIRONMENTAL GROUP HIRED TO DO REQUIRED CLEAN-UP. WILL COMMENCE WORK ON 11-13-97. 11-13-97: 09:05: CAMPBELL/DARCANGELO ON SITE TO SUPERVISE M.E.G. 11:45: CLEAN-UP COMPLETE. APPROXIMATELY 5 YARDS TO BE DISPOSED OF. AREA BACKFILLED WITH TOPSOIL. NO ADDITIONAL REMEDIAL ACTIONS REQUIRED AT THIS TIME. RESPONSIBILITY LETTERS SENT TO INSURANCE COMPANY AND TO THE R.P. **NOTES: 1. ON OR ABOUT NOVEMBER 20, 1997, THE RESPONSIBILITY LETTER SENT THE R.P. WAS RECEIVED AT THE STONY BROOK OFFICE DUE TO AN UNKNOWN ADDRESS . 2. ACAMPORA ATTEMPTED

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Contact Name: Not reported
DEC Memo: ****SAME AS 0508415 (REPORTED 10/14/05 BY FICHTER)*** DR 10/31/05
1120-1150 Hrs (A): DEC inspected the facility with Eddie Richter.
10/31/05 1120-1150 Hrs (B): AS PER RICHTER, AB OIL HAD ALREADY PUMPED
OUT THE DRUMS AND TAKEN THEM AWAY, AND FENLEY & NICOL HAD GIVEN THEM
AN ESTIMATE FOR THE CLEANUP OF THE SOIL. 10/31/05 1120-1150 Hrs (C):
Fichter showed DEC where the trailer had been located. DEC confirmed
that there were waste oil stains on the soil. DEC discussed the
cleanup and disposal process, options, etc with him. 10/31/05
1120-1150 Hrs (D): DEC ALSO NOTICED 2 1,000GAL TANKS IN A CONCRETE
CONTAINMENT BIN. They were siphoned together, and there was some
spillage at the north end of the eastern tank. DEC directed that this
be cleaned up. 10/31/05 1120-1150 Hrs (E): DEC DID NOT NOTICE ANY
SUFFOLK COUNTY HEALTH DEPARTMENT PERMIT, BUT WAS NOT CERTAIN WHETHER
THE TANKS WERE REGULATED BY SCHD BECAUSE EACH WAS LESS THAN 1,100
GAL. DR 10/31/05 1427 Hrs: Email to ECO Simmons- updated him. DR
11/04/05 1515 Hrs: Fax to Bob Seyfarth (SUFFOLK COUNTY HEALTH
DEPARTMENT)- notified him of the tanks. 11/04/05 1551 Hrs: Seyfarth
left message- they have a record for 2 fuel oil tanks here that were
'...built in accordance with SCHD regulations but were not required
to do so...unless they [dispense fuel?], these tanks are not
regulated because each is less than 1,100gal'. DR 11/07/05: Received

Remarks: disposal receipt for the OIL. DR 11/22/05 1455-1500 Hrs: Stopped at the site- as per Robert Fichter, they will clean up after the holidays. DR 12/07/05 1200 Hrs: Met ECO Simmons in the office- he said he issued a ticket for the BURNING. Spills updated him. DR 12/08/05 1055 Hrs: Called Eddie Fichter- he will try to dig up the soil Fri 12/9. DR 12/12/05 0915 Hrs: Fichter left message- he has dug up the soil. DR 12/16/05 0812 Hrs: Fichter left message- has DEC reinspected? DR 12/16/05 0930 Hrs: Called Fichter- DEC to inspect Wed 12/21. DR 12/21/05 1155-1215 Hrs (A): DEC inspected the excavation- R&R had dug up an area approximately 10ft E/W x approximately 8ft N/S by approximately 3ft DEEP. The soil in the excavation showed no visible or olfactory signs of contamination. 12/21/05 115-1215 Hrs (B): DEC inspected the tanks- THERE WAS STILL/AGAIN SPILLAGE PRESENT AT THE NORTH END OF THE EASTERN TANK. DR 01/23/06 09__ Hrs: Ron from R&R left message- soil has been disposed. DR 01/24/06 0900 Hrs: Called R&R- no answer or voicemail. DR 01/24/06 0945 Hrs: Called R&R and spoke to Bill Hickey- requested soil disposal receipts. DR 01/26/06: Received soil disposal receipts- signature was illegible. DR 01/27/06 0925 Hrs: Left message on R&R's voicemail- NEED BETTER COPY OF SOIL DISPOSAL RECEIPTS. DR 01/31/06: Received another copy of the soil disposal receipts- same quality as before. DR"
"WHILE INSPECTING THE SITE WITH THE RIVERHEAD FIRE MARSHAL (BRUCE JOHNSON) FOR A BURNING COMPLAINT, SIMMONS NOTICED A SMALL UTILITY BOX TRAILER (APPROX 20FT X 8FT) SITTING ON THE GROUND AT THE REAR OF THE PROPERTY. THERE ARE AT LEAST 5 55GAL DRUMS AND SOME ENGINE PARTS INSIDE. IT APPEARS THERE IS SPILLAGE INSIDE AS WELL AS AROUND THE TRAILER. (DR) TWO RELATED COMPANIES OPERATE HERE- R&R CONSTRUCTION AND DISCOUNT CARTING."

1120-1150 Hrs (A): DEC inspected the facility with Eddie Richter.
10/31/05 1120-1150 Hrs (B): AS PER RICHTER, AB OIL HAD ALREADY PUMPED OUT THE DRUMS AND TAKEN THEM AWAY, AND FENLEY & NICOL HAD GIVEN THEM AN ESTIMATE FOR THE CLEANUP OF THE SOIL. 10/31/05 1120-1150 Hrs (C): Fichter showed DEC where the trailer had been located. DEC confirmed that there were waste oil stains on the soil. DEC discussed the cleanup and disposal process, options, etc with him. 10/31/05 1120-1150 Hrs (D): DEC ALSO NOTICED 2 1,000GAL TANKS IN A CONCRETE CONTAINMENT BIN. They were siphoned together, and there was some spillage at the north end of the eastern tank. DEC directed that this be cleaned up. 10/31/05 1120-1150 Hrs (E): DEC DID NOT NOTICE ANY SUFFOLK COUNTY HEALTH DEPARTMENT PERMIT, BUT WAS NOT CERTAIN WHETHER THE TANKS WERE REGULATED BY SCHD BECAUSE EACH WAS LESS THAN 1,100 GAL. DR 10/31/05 1427 Hrs: Email to ECO Simmons- updated him. DR 11/04/05 1515 Hrs: Fax to Bob Seyfarth (SUFFOLK COUNTY HEALTH DEPARTMENT)- notified him of the tanks. 11/04/05 1551 Hrs: Seyfarth left message- they have a record for 2 fuel oil tanks here that were '...built in accordance with SCHD regulations but were not required to do so...unless they [dispense fuel?], these tanks are not regulated because each is less than 1,100gal'. DR 11/07/05: Received disposal receipt for the OIL. DR 11/22/05 1455-1500 Hrs: Stopped at the site- as per Robert Fichter, they will clean up after the holidays. DR 12/07/05 1200 Hrs: Met ECO Simmons in the office- he said he issued a ticket for the BURNING. Spills updated him. DR 12/08/05 1055 Hrs: Called Eddie Fichter- he will try to dig up the soil Fri 12/9. DR 12/12/05 0915 Hrs: Fichter left message- he has dug up the soil. DR 12/16/05 0812 Hrs: Fichter left message- has DEC reinspected? DR 12/16/05 0930 Hrs: Called Fichter- DEC to inspect Wed 12/21. DR 12/21/05 1155-1215 Hrs (A): DEC inspected the excavation- R&R had dug up an area approximately 10ft E/W x approximately 8ft N/S by approximately 3ft DEEP. The soil in the excavation showed no visible or olfactory signs of contamination. 12/21/05 115-1215 Hrs (B): DEC inspected the tanks- THERE WAS STILL/AGAIN SPILLAGE PRESENT AT THE NORTH END OF THE EASTERN TANK. DR 01/23/06 09__ Hrs: Ron from R&R left message- soil has been disposed. DR 01/24/06 0900 Hrs: Called R&R- no answer or voicemail. DR 01/24/06 0945 Hrs: Called R&R and spoke to Bill Hickey- requested soil disposal receipts. DR 01/26/06: Received soil disposal receipts- signature was illegible. DR 01/27/06 0925 Hrs: Left message on R&R's voicemail- NEED BETTER COPY OF SOIL DISPOSAL RECEIPTS. DR 01/31/06: Received another copy of the soil disposal receipts- same quality as before. DR"

Remarks:

"WHILE INSPECTING THE SITE WITH THE RIVERHEAD FIRE MARSHAL (BRUCE JOHNSON) FOR A BURNING COMPLAINT, SIMMONS NOTICED A SMALL UTILITY BOX TRAILER (APPROX 20FT X 8FT) SITTING ON THE GROUND AT THE REAR OF THE PROPERTY. THERE ARE AT LEAST 5 55GAL DRUMS AND SOME ENGINE PARTS INSIDE. IT APPEARS THERE IS SPILLAGE INSIDE AS WELL AS AROUND THE TRAILER. (DR) TWO RELATED COMPANIES OPERATE HERE- R&R CONSTRUCTION AND DISCOUNT CARTING."

replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

FIS (New York - Facility Information System) is New York's Department

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Spiller Address: 529 POND PATH
Spiller Company: 001
Contact Name: KEVIN KULHAN
DEC Memo: "ROBERT DIPASCO, 529 POND PATH, SETAUKET, CELL 516-383-9115 SAME AS 08-00956 5/1/08 FILE REASSIGNED 6/24/2008 10:40 On site, Spoke with the current tenant who showed me the site Upon inspection found Drum on its site in the driveway. Drum does not appear to be leaking. Unknown Contents. 6/25/2008 11:00 t/c with Robert DiPasco, property owned Advised Mr. DiPasco that he is responsible for the proper disposal of the drum. Gave Mr. DiPasco names of environmental contractors and advised him to check the yellow pages for contractors that could secure the drum and remove it for proper disposal. EASTERN PICKED UP THE DRUM FOR PROPER DISPOSAL, REQUEST MANIFEST MADE APPEARS TO BE WASTE OIL "
Remarks: "A drum of unknown petroleum was left at the residence by previous renters. The owner refuses to remove the drum. The drum is leaking onto the driveway and dirt."

Environmental Interest/Information System
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Spill Record Last Update: 2016-02-04
Spiller Name: CHRISTOPHER CAMPOVERDE
Spiller Company: IGLH
Spiller Address: 81 HIGH HILL RD
Spiller Company: 999
Contact Name: CHRISTOPHER CAMPOVERDE
DEC Memo: "12/04/13 1115 Hrs (A): Called Campoverde- he said they began to have problems with the heat and called Petro. 12/04/13 1115 Hrs (B): The tank is underground (he does not know the size) and has two lines. IT APPEARS ONE OF THE LINES (HE DOES NOT KNOW WHETHER IT IS THE FEED LINE OR THE RETURN LINE) LEAKED (OR POSSIBLY WAS HIT WHEN A CONTRACTOR INSTALLED A FENCE ABOUT TWO MONTHS AGO). 12/04/13 1221 Hrs: Campoverde called the Spill Hotline with an update- 'Joe from Petro advises loss occurred due to a rupture to lines caused by a fence that was installed 2 months ago'. DR 12/04/13 1227 Hrs (A): DOUG SCHRIMPF (EASTERN ENVIRONMENTAL) CALLED- THEY WERE HIRED BY CAMPOVERDE. 12/04/13 1227 Hrs (B): Schrimpf said BOTH lines were damaged when the fence was installed, but so far PETRO HAS NO ESTIMATE OF THE AMOUNT LOST. 12/5/13 1500 Hrs: RJP spoke to Doug. Began excavation in area of broken line, loss due to damaged return line near 1000 gal UST. Some contamination observed around UST, unknown depth. IGLH authorized removal of UST, will continue excavation tomorrow after removing UST. Scheduled inspection for Monday 12/9/13 1000 Hrs. RJP. 12/17/13 0915 Hrs: RJP took call from Doug Schrimpf. UST removed. Some impacted soil observed around side of UST, associated with release from line. Excavation of 15 cyd of soil, 8' x 7' x 8', clean endpoints. RJP authorized backfill over phone. RJP. 9/1/15: RJP requested closure report from Eastern Env. Report emailed by Lou B. RJP. Contaminated soil found around 1000 gal UST and damaged fuel line, Contaminated soil and associated UST excavated. UST in fair condition, no holes observed. Clean endpoints within excavation. Backfill approved. Line was crimped, preventing discharge of a large volume of product. No further action. RJP."
Remarks: "repairs underway/clean up pending. Joe from Petro advises loss occurred due to a rupture to lines caused by a fence that was installed 2 months ago."

DEC Memo:	"03/28/17 1504 Hrs: Received Federal National Response Center (NRC) report 1174255. Checked the database for any recent reports for this address but found none. This appears to be a USA gas station (business name may be ERBA ?). Checked Google Earth- DR 03/28/17 pm: The EPA called- they had received the report. DEC gave her the case number and informed her it had been assigned to RJP. P.O. Cortez (USCG Marine Pollution Coram) called- they had received the report, and wanted to speak to the inspector. Assigned to RJP, gone for day. Also informed him that this apparently involved an underground tank that overflowed, not a drum, that it happened several days ago, and that a review of Google Earth did not show any surface waters in the immediate vicinity. DR 3/30/17 RJP on location. 0.8 quarts (0.2 gallons) used motor oil from 5 gal bucket, impact to surface puddle. RJP provided Peat Sorb to complete cleanup, once dry impacted material to be disposed as trash. No further action. RJP."

Remarks:

"AN ANONYMOUS COMPLAINANT CLAIMED THAT A TANK BEHIND THE BUILDING OVERFLOWED AND SPILLED 130GAL OF USED OIL OR WASTE OIL ONTO THE GROUND. (DR)"

Contact Name: DR. PAUL ORLOWSKI
DEC Memo: "12/23/16 0915 Hrs (A): Called Orłowski- he said this apparently happened between 0300 and 0400 hours this morning. 12/23/16 0915 Hrs (B): EMPIRE BULK was pumping product from a tank truck INTO a storage tank and it was overfilled. 'By the time the driver shut down the pump 300-600gal of product had spilled into the CONTAINMENT area.' The product, along with some water from the containment area, was then pumped BACK into the tank truck. 12/23/16 0915 Hrs (C): Orłowski is using Portland cement to finish removing any residual product from the containment area. 12/23/16 0915 Hrs (D): DEC advised him an inspector would respond later today to confirm the cleanup was satisfactory. HE ASKED THAT DEC CALL HIM PRIOR SO THAT HE CAN ARRANGE TO BE PRESENT. DR 12/23/16 am: NA responded. DR SURFACE SPILL ONLY. SPILL CLEANEDUP, LIQUID REMOVED, 2 DRUMS SOLIDS REMOVED, NO FURTHER ACTION"

DEC Memo: "8/1/2012 t/c to Brian Villanti, Property Owner -Landlord Tenant dispute. -There was a problem with the cesspool, but repairs were made and checked by the Health Department. No oil spill. -House is supplied by public water. There was a well, but the house was converted to public water ~ 35 years ago. (BD) *House is supplied by public water. TELECON TO BRYAN VILLANTI, NO ANSWER"
Remarks: "Tenant states that there was a sewage leak that flooded the basement. The sewage has been cleaned, but now there is a fuel oil odor in the house. The tenant is concerned for the drinking water. (Private well?)"

DEC Memo:	"7/21/08 1035 Hrs: DEC Spills (D Raymond) spoke to DEC (ECOs)- ECO Mark Simmons covers that area but is out today; his office does not know whether he already has this complaint. 7/21/08 1045 Hrs: Spills (D Raymond) met the Suffolk County District Attorney's Environmental Crimes Unit Investigators Ted Severino and Dan McDonnell in DEC's office- they are not aware of this incident. 7/21/08 1050 Hrs (A): Spills (D Raymond) called Zitek- while patrolling this area last Thursday, Flynn approached him to say that there are trailers with an estimated 50-60 fuel oil tanks and drums parked on the property in question. Apparently, Flynn also told him that there appears to have been some spillage and/or deliberate dumping of the contents, and that he suspects some containers may have been buried on the property. 7/21/08 1050 Hrs (B): According to Zitek, Eastern is at #258 Line Rd, and a Mr Kimmel owns the property in question. 7/21/08 1050 Hrs (C): Spills updated Zitek, explained that Spills normally refers such cases initially to the ECOs [and the BECI unit] for

FINDS:

Registry ID: 110006701845

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

FINDS:

Registry ID: 110006095386

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Registry ID: 110064274627

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking

DR 07/19/07 1455 Hrs: Called Fey- no answer or voicemail. DR 07/19/07 (approx 1420 hrs?): Fey left message- 'he is leaving soon, and will be back Saturday. The soil is in [THURM'S?] barn'. DR 07/20/07 1430-1445 Hrs (A): DEC inspected the excavation- no one was home. 07/20/07 1430-1445 Hrs (B): The excavation was approximately 15ft x 5ft x 3 DEEP. The soil was loam and had no obvious petroleum odor or stain. DEC dug down approximately 3 in several spots, with the same findings. DR 07/23/07 0843 Hrs: Fey left message- THURMS NEEDS THEIR TRUCK; WHAT IS THE STATUS OF THE CASE? DR 07/24/07 0905 Hrs: Fey called- DEC updated him, AND TOLD HIM THAT, DUE TO THE SMALL AMOUNT OF SOIL GENERATED, IT COULD BE BAGGED AND DISPOSED WITH THE GARBAGE. DR" "LEAKING TANK AND IS ON HIS PROPERTY AND LAWN IS SATURATED: DRUMS OF OIL ARE ALSO ON PROPERTY. CALLER THINKS DEC SHOULD GO OUT SOON BEFORE HOMEOWNER TRIES TO HIDE"

THE PHONE BOOK LISTS BOTH THURMS ESTATES AND THURMS MOBILE HOMES HERE.*** DR ***THERE HAVE BEEN OTHER INCIDENTS AT THIS FACILITY; SOME ADDRESSES MAY BE GIVEN AS 703 FRESH POND, OTHERS AS THE UNIT OR LOT NUMBER, AND OTHERS AS THE SPECIFIC STREET NUMBER*** DR 07/10/07 1300 Hrs: Called Ed Olson of the Suffolk County Health Department- THE SITE IS ONE TAX LOT, AND THEREFORE THE TANKS ARE REGISTERED UNDER THEIR PETROLEUM BULK STORAGE PROGRAM. He will have their inspector call DEC. DR 07/11/07 0930 Hrs: T Demeo left message for Eva Badula of SCHD. DR 07/11/07 1130 Hrs: Informed TD that DR has another incident here [SPILL 0703948- TANK LEAK]. DR 07/11/07 1325 Hrs (A): Badula called- SHE SMELLED A SEPTIC ODOR ON A TANK, BUT A FUEL OIL ODOR IN THE SOIL. No soil was removed yet. 07/11/07 1325 Hrs (B): NINE TANKS HAVE BEEN REMOVED SO FAR. THERE ARE NINE MORE FUEL OIL TANKS AND ONE GAS TANK TO BE REMOVED. 07/11/07 1325 Hrs (C): She will be on site 7/12. DEC will meet her. DR 07/12/07 1200-1300 Hrs (A): DEC inspected the site, and met Badula and VTEQE (the contractor). 07/12/07 1200-1300 Hrs (B): SCHD SAID APPROXIMATELY 15 300GAL FUEL OIL TANKS WERE BEING REMOVED FROM THIS EASTERN SIDE OF THURMS ESTATES, ALONG WITH 3 FUEL OIL TANKS AND 1 GAS

TANK FROM THURMS OWN BUILDINGS ON THE WEST SIDE OF THE FACILITY. 07/12/07 1200-1300 Hrs (C): THE TANKS (EXCEPT FOR ONE) WERE STIP3 HIGHLAND [COATED STEEL], AND HAD REPORTEDLY BEEN IN USE UNTIL EARLY 2007. 07/12/07 1200-1300 Hrs (D): AS PER VTEQE- WINDMILL HAD PERFORMED SOIL BORINGS [WHEN WAS NOT SPECIFIED]. THE TANKS WERE BEING REMOVED AT THE DIRECTION OF THE PROPERTY MANAGEMENT COMPANY - KEVIN MORGAN (MORGAN MANAGEMENT PITSFORD NY 585-419-9630). 07/12/07 1200-1300 Hrs (E): DEC and SCHD inspected #367 East 2nd Ave, where the SCHD had smelled both fuel oil and septic odors. The soil was silty loam over silty sand . DEC COULD NOT FIND ANY FUEL OIL OR SEPTIC ODORS AT THIS TIME. DR 07/23/07 1105 Hrs: Called Badula- she said the rest of the tanks seemed ok, and she would send a copy of her report. DR 07/25/07 1025 Hrs: Received faxed copy of SCHD's report for TANKS 2-6 . DR 07/26/07 1515 Hrs: Called Badula- she will send her report for the other tanks. DR 07/26/07 1537 Hrs: Received faxed copy of SCHD's report for TANKS 1 AND TANKS 7-20 . DR 02/18/09 1130 Hrs: Nicole (BUILDING EVALUATION SERVICES- CONSULTANT FROM MARYLAND) left message. DR 02/18/09 1550 Hrs: Called her- she is doing a site assessment on the property, and wanted to know whether sewage had been found. DEC updated her. DR 02/27/09 1357 Hrs: Regional Spill Engineer forwarded an email forwarded to her by DEC Albany, who had received an email from Building Evaluation Services. DR updated her. DR"

Environmental Interest/Information System
 AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major

redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

DEC Memo: "1005434 8/16/10 12:20 Spoke with Mrs. Bodecchi. Petro emptied tank and put home on temporary can. Tank replacement ans cleanup still pending. -KY 09/07/10 1625 Hrs (A): MIKE MCARDLE (MILRO ASSOCIATES) called to inquire who had been assigned to the case- informed him it was unassigned. 09/07/10 1525 Hrs (B): McArdle said Milro was giving the owner a proposal for the cleanup, and would keep DEC updated if they got the job. DR 10/07/10 0950 Hrs (A): NICOLE (MILLER ENVIRONMENTAL) called to inquire who had been assigned to the spill- informed her it was unassigned. 10/07/10 0950 Hrs (B): She said they had already excavated approximately 1cy of soil, and there was still contamination present. 10/07/10 0950 Hrs (C): They will continue excavating soil today. THEY HOPE TO BACKFILL TOMORROW. **Contaminated soil excavated to a clean endpoint. 10/07/10 0950 Hrs (D): DEC DIRECTED HER TO CALL BACK WITH AN UPDATE LATER TODAY, AT WHICH TIME WE WOULD ADVISE HER WHETHER WE WOULD NEED TO INSPECT THE EXCAVATION PRIOR TO IT BEING BACKFILLED. DR 10/08/10 1050 Hrs (A): Nicole called- they removed 8-9cy of soil, and 'EXCAVATED SLIGHTLY BEYOND THE END OF ANY OBVIOUS ODOR'. They did not performed PID screening nor endpoint sampling. She did not have the dimensions of the excavation. 10/08/10 1050 Hrs (B): They plan to dispose of the soil MONDAY (holiday), and wanted to know whether they could backfill. 10/08/10 1050 Hrs (C): DEC INFORMED HER THAT WE MIGHT WISH TO INSPECT THE EXCAVATION, AND ASKED HER WHETHER THEY FELT IT WOULD BE SAFE TO LEAVE THE EXCAVATION OPEN UNTIL AT LEAST TUESDAY. SHE SAID IT WOULD BE SAFE TO DO SO. 10/08/10 1050 Hrs (D): DEC informed her the file would be updated and given to a supervisor for review. She said she would call back Tuesday. DR 10/08/10 1110 Hrs: Called BD- he may be able to check today. He will call Nicole. DR 10/12/10 FILE REASSIGNED"

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

 DEC Region: 1
 DER Facility ID: 366889
 DEC Memo: "1/22/10 - As per Dege, piping was divorced from tank and tank passed an alone test. The piping is wavy and has some caps on it in various places. Since the piping could not be purged of air, he issued an inconclusive system test. There is no reason to believe there is a leak. The church building (building #26) will undergo rehabilitation some time in the future. At that time, the piping will be re-done under the direction of SCDOHS. 1/22/10 TELECON TO DEGE, WILL CALL WITH STATUS, AS PER STEVE AT G&M DEGE, TANK IS NOT PLANNED TO BE REPIPED, THEY BACKFILLED LEAVING A VENT ON THE TANK 1/26/10 - HC T/C with Walter Petrule at SCDOHS. They have the tank listed as temporarily out of service. Testing of the tank will be conducted annually so that it remains in compliance. SCDOHS will need to approve any re-piping of the tank in the future. 10/26/10 - HC on site. Tank remains out of service. No construction taking place on the church. No need to keep spill open since SCDOHS will monitor tank status and re-piping under PBS program. TANK ALONE TEST PASSED PIPING REMOVED FROM TANK PIPING INCONCLUSIVE DUE TO AIR POCKETS, SCHD WILL MONITOR RE-PIPING WHEN BUILDING IS RESTORED SOME TIME IN THE FUTURE"
 Remarks: "TANK TEST IS INCONCLUSIVE. UNK IF ANY PRODUCT SPILLED."

Spiller Address: 42 ZOPHAR MILLS ROAD
Spiller Company: 999
Contact Name: KENT FUHRMANN
DEC Memo: "08/18/09 1235 Hrs (A): Called Fuhrman- he said they received a call this morning that there was no heat at the POOL HEATER. 08/18/09 1235 Hrs (B): The tank is an ABOVEGROUND 275GAL WITH ONE LINE. IT WAS FILLED 8/13 AND IS NOW EMPTY. Fuhrman's technician said there is a 6ft dia stain under the tank but NO puddles of oil. 08/18/09 1235 Hrs (C): The owner is not home at this time. He left the owner a phone message advising the owner to call their insurance. 08/18/09 1235 Hrs (D): DEC asked Fuhrman that, if they hear from the owner, to suggest that the impacted area be covered with plastic to keep rain off. DR 2/2/2010 13:00 Brian D. On Site, C2G on site -Horizontal AST for the pool heater. -Contaminated soil excavated form a ~ 6' X 6' X 6'd excavation. -Fuel oil odors still present at the bottom of the excavation. -Hand auger to a depth of ~17'd (bg) -Fuel oil odors still present in the soil. -Additional soils can not be removed due to structural concerns (Shed/ pool) 13:20 Off Site g/w >50' bg ** Contaminated soil excavated, g/w impact unlikely."
Remarks: "CALLER STATES THAT THE 275 GALLON TANK FAILED ABOUT 230 GALLONS SPILLED TO SOIL. CLEAN UP STATUS UNK."

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 DEC Memo: "11/08/15 @20:45 t/c to notifier, by Ms. Hesser there is persistent odors in the area smelled by her and other churchgoers. She thinks that some chemicals has been spilled in Grumman facility nearby. @21:00 forwarded to RJP-secondary to check. (VP) 11/8/15 2145 Hrs: RJP on location. Checked St. Peters and Wading River Baptist church, no odor observed. Observed odor similar to mulch or wet smoky fire to east of Wading River Manor just south of Grumman Blvd, unlikely to be chemical spill but unable to investigate due to darkness. Area is NYS land. No source observed, will recheck in am. RJP off location 2215 Hrs. RJP. 11/9/15 0845 Hrs: RJP on location. Odor in same area as previously identified. No roadway access to area, hiked in. Odor was present, was minor and again similar to mulch. No evidence of chemical spill. Area is near Holiday pine tree farm, potentially source of odor. No photos taken. No DEC action. RJP off location 1015 Hrs. RJP."
 Remarks: "air in the area smells like acetone - caller can give you better information"

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

DEC Memo:	"06/19/12 14:30 NH responding 15:45 NH arrived on the site, Riverhead FD, PD Suffolk County Fire Rescue, ECO- Carbone on scene. Driver was pronounced dead on the scene, fire broke out in the cab and driver burned. Based on the observation from the FD, diesel burned off during the explosion that occurred. Local residents had to evacuate. NH walked around the site with ECO, to inspect the free standing water. No sheen was observed on the roadway or on the grass near the truck's saddle tank. Nearby drains were dyked off with dirt and sand. No sheen observed in drain found in the adjacent parking lot. 16:00 Coroner arrived on the scene, body was removed and SCPD began the investigation 16:40 NH left the scene."
Remarks:	"Caller advised traffic accident occurred at above and 200 gal of diesel and 50 gallons of hydraulic oil spilled onto asphalt and soil. Cleanup is pending. Requesting a response. Dispatch will be advising an ECO for the area."

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

DEC Memo: "11/19/15 1455 Hrs: Left message for Smith. DR 11/19/15 1505 Hrs: Checked Google Earth- this does not appear to be near surface waters. DR 11/19/15 1505 Hrs: Checked the USGS Depth To Water (DTW) map- was unable to obtain an estimated reading, but the DTW appears to be quite deep, possibly over 150ft. DR 11/19/15 1630 Hrs (A): DOUG SCHRIMPF (EASTERN ENVIRONMENTAL) called- he is on site, and confirms that approximately 200gal of oil leaked and that an unknown amount entered the drain. In addition there is a large amount of personal contents impacted. 11/19/15 1630 Hrs (B): Eastern will aerate the basement and try to determine where the drain leads. 11/19/15 1630 Hrs (C): DEC advised Schrimpf that the case has been assigned to BD, who is scheduled to go to the North Fork tomorrow, and advised Schrimpf to call BD tomorrow morning. DR 11/19/15 1715 Hrs: Smith left message on x320- 'restoration company was on site when he left.' DR Request closure letter to Father David Bartolotli P.O. Box 112 Wading River, NY 11691 917-951-0612 *Contaminated soil excavated."
Remarks: "Basement tank; item fell in basement and broke tank valve. Tank leaked onto concrete floor with drains. Cleanup is pending repairs."

DEC Memo: "04/09/12 1130 Hrs (A): Called Gomez- he is on scene, and HOPE CONRAD (SUFFOLK COUNTY HEALTH DEPARTMENT) is or was on site. 04/09/12 1130 Hrs (B): THEY ARE REMOVING FOUR TANKS- THIS ONE, AND 1 550GAL, 1 1,000GAL, AND 1 2,000GAL (ALL FUEL OIL) TANKS TOMORROW, AND THE SCHD WILL BE ON SITE. DEC REMINDED HIM THIS DEPARTMENT IS REQUIRED TO BE NOTIFIED OF TANK REMOVALS. 04/09/12 1130 Hrs (C): WHILE LIFTING THIS TANK FROM THE EXCAVATION, a small amount of oil leaked out of a hole. They excavated approximately 1cy of soil, and Conrad was satisfied with the cleanup. DR 04/10/12 1505 Hrs: Called Phoenix and spoke to PAUL SHERWOOD- 'he believes there were no other problems found'. DR"

Remarks: "Tank removal with soil impact. Cleanup is complete."

DEC Memo:

"13MAR07 1310 HRS: CALLED K SALAFRIO- SHE CAN RESPOND BUT MUST CHECK ANOTHER SITE FIRST. 13MAR07 1310 HRS: CALLED USCG- THEY HAD SINCE SPOKEN TO THE SUFFOLK COUNTY PD, WHO HAD BEEN ON SITE THIS MORNING. THE SCPD SAID THERE HAS BEEN A SUNKEN VESSEL HERE FOR ABOUT SIX MONTHS, AND APPARENTLY A CITIZEN APPROACHED THEM ABOUT THE VESSEL. ACCORDING TO THE USCG, THE SCPD SAID THEY WOULD RECHECK THE SITE. 3/21/07 16:40 CITIZEN CALLED, VESSEL IS STILL SUNKEN, HE SAYS HE STILL CAN (SOMETIMES) SEE SHEEN, INFORMED HIM USCG HAS LEAD JURISDICTION AND THAT HE MAY WISH TO CALL THEIR CORAM OFFICE, ALSO GAVE HIM HOTLINE NUMBER"
Remarks: "THE USCG RECEIVED AN ANONYMOUS CALL OF A SUNKEN VESSEL IN THE CANAL NEXT TO TANNER PARK BUT WERE GIVEN FEW DETAILS BEFORE THE CALLER HUNG UP. THE COAST GUARD INQUIRED WHETHER DEC HAD ANY RESPONDERS IMMEDIATELY AVAILABLE, AS THEY DID NOT. DEC INFORMED THEM WE WOULD CHECK AND CALL BACK."

Environmental Interest/Information System
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Actual: 48 ft.	FINDS: Registry ID: 110008491881 Environmental Interest/Information System ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

MOJE RESIDENCE (Continued)

S111317628

SHE CALLED PETRO AND THEY INSPECTED THE TANK, THEIR TECHNICIAN SAID THE SPILLAGE SEEMED MINOR. 10/11/11 1105 Hrs (C): The tank sat on concrete pads, but some the oil leaked onto soil. 10/11/11 1105 Hrs (D): Milro responded and set up a temporary tank. THEY CALLED HER TODAY TO SAY THEY CANNOT SET UP THE REPLACEMENT TANK UNTIL THE SPILL NUMBER IS CLOSED. 10/11/11 1105 Hrs (E): DEC informed Moje that the contaminated soil must be dug up, and that she could either have Milro do it or she could do it herself. DEC advised her how to check the soil (oily appearance, oily feel, oily odor) if she dug up the soil herself. 10/11/11 1105 Hrs (F): DEC also informed her a supervisor would review the case at the end of the day to determine whether to assign it to an inspector, leave it open but unassigned, or close it based upon what she had reported. SHE SAID SHE WOULD TRY TO CLEAN UP THE SPILLAGE AND CALL BACK WITH AN UPDATE TODAY. DR 10/11/11 1205 Hrs (A): Mrs Moje called- she dug up 30 POUNDS (SHE WEIGHED THE BAG) of soil, placed it in a garbage bag, and will dispose of it with her trash. She is confident she removed all the contaminated soil. 10/11/11 1205 Hrs (B): DEC advised her to call back tomorrow to determine the status of the case. DR" "Petro Oil contacted for cleanup. 1800-645-4328."

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 DEC Memo: "UNFOUNDED COMPLAINT, NO FURTHER ACTION REQUIRED"
 Remarks: "The following information was received through the DEC website Report an Environmental Violation Online or sent directly by the complainant to an OPP dispatch mailbox: Who Did It: Household resident appears to be running an auto repair business and salvage yard in the back yard garages, in very close proximity to the Peconic Lake and Swan pond and parklands. What Occurred: Petroleum and other automobile fluids are stored in container throughout the property, along with abandoned vehicles and a tow truck, endangering public health and contaminate groundwater, surface water, and soils. When Did It Occur: Business appears to be in operation for some time now, and continues to operate at present time. County: Suffolk Municipality: BROOKHAVEN Location Or Address: 43 Pinehurst Blvd Calverton NY, 11963 How Did It Occur: Irresponsible home owner, with disregard for environment and public park lands. Additional Details: Both garages appear to be concealed with tall fence and strategically planted bushes. I have these concerns because the lakes may have

 DEC Memo: "12:45 PM -Called Town of Brookhaven Fire Marshall. -Spoke to Fire Marshall Walter Dunn. -Referred the incident to his unit for follow-up. -Fire Marshall Richard Hann has been dispatched to the site. -Will call the office back with findings."

Remarks: "Caller observed a wet stain onto roadway (approx. 20' x 30') at the above location. According to the citizen, the source of the spill came from a fuel oil truck who made a fuel oil delivery earlier this morning. The location of the spill is on West of Pinehurst Street in front of the last house on the right. Caller also stated that speedy dry has been applied onto impacted road but did not absorb the oily residuals. Caller is requesting a site inspection from DEC."

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

Environmental Interest/Information System
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

(VP) 05/27/14 1245 Hrs (A): Checked the internet to clarify the address- THIS IS LAKEWOOD PARK LLC TRAILER PARK. 05/27/14 1245 Hrs (B): Their address is 1964 River Rd and their phone number is 631-727-3697. DR"

Remarks: "unoccupied home outside tank - very old - leaking fuel from bottom cuplink - clean up pending 631 599 7520 (phone number) - caller who was asked by the park manager to go over and take a look at the situation because he lives next to the leak. This house is for sale and being renovated by Carl. The tank is now empty and apparently, there is a maintenance person enr to do the cleanup. The caller states this is an intentional leak because the tank is at an angle when it used to be level. This person lives next to the building where the leak is taking place because it's on his side."

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

Remarks:

"PD RECEIVED CALL FROM WATER DISTRICT THAT THEY ENCOUNTERED VERY STRONG GASOLINE ODOR IN MANHOLE WHEN IT WAS REMOVED. THERE IS GAS STATION HERE. DEC THEN SPOKE TO CHUCK LEJA OF THE WATER DISTRICT- 19 SOUND ROAD IS A RESIDENCE. WERE TO MOVE THE WATER METER THAT IS HERE. WHEN THEY BEGAN EXCAVATING, THEY ENCOUNTERED GASOLINE ODOR IN THE SOIL. THERE WAS NO ODOR IN THE METER VAULT ITSELF. THE EXCAVATION WAS TOWARD THE SOUTH SIDE OF THE PROPERTY, NEAR THE NORTH SIDE OF THE GAS STATION PROPERTY. THERE IS A POND NEARBY, AND GROUNDWATER IS AT APPROX 4FT. DOES NOT THINK THERE WAS ANY SHEEN (HE'S NOT CERTAIN). NOT CERTAIN OF THE BRAND OF THE STATION."

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

DEC Memo: "Prior to Sept, 2004 data translation this spill Lead_DEC Field was CAMBPELL 05/14/94 (A): Riverhead PD (CASE # UNK) reports tank truck rollover. 05/14/94 (B): DEC (Campbell) responded- Met Island Transportation, MPC, and Riverhead PD. ITC had hired MPC to clean up. 05/14/94 (C): Truck was on the ramp from the westbound LIE when it rolled over. Was carrying approx 9200gal of gas. Would later estimate approx 1023gal gas spilled on ground. 05/14/94 (D): TRAILER PLATE- 1457__ (STATE UNK); CAB PLATE- PA7545 (NY); TRAILER NUMBER 784502 05/14/94 (E): MPC began offloading the truck. UNK HOW MUCH WAS OFFLOADED. 05/14/94 (F): Suffolk County PD Motor Carrier Safety later came by. Unknown if they issued tickets. 05/14/94 (G): After the truck was offloaded and taken to ITC's yard, MPC began removing contaminated soil. Removed approx 350cy. Have sketch and photos. 05/15/94: DEC (Lamanno) on site- MPC continuing to remove soil. Removed approx another 370cy. Excavation approx 50ft x 50ft x 15ft deep. Took bottom sample. Pedneault to analyze for DEC. Have photos. 05/16/94: FAX to ITC- Soil must be either disposed or stockpiled at ITC's yard by May 20. 05/17/94: DOT called- Various concerns. 05/17/94: ITC called- Want to landfarm the soil at their yard. DEC said this was unacceptable. 05/18/94: Pedneault data- Find no BTEX or MTBE in the bottom sample. 05/19/94: DEC (Parish) on site- Jimmy Byrnes Trucking transported soil to ITC's yard. 05/20/94: Parish checked site- FOUND SOME ADDITIONAL AREAS ALONG SHOULDER OF ROAD THAT NEED SOIL REMOVAL. ITC will do this next week in conjunction with landscaping. 05/20/94: ITC FAX- Truck had 9200gal originally. Had made deliveries of 5200gal and 2977gal, for a total of 8177gal. 06/02/94: Campbell, ITC, their landscaper, and DOT meet on site. Discussed areas that need additional soil removal. Estimate only 1-2cy involved. 06/06/94: Campbell, Jimmy Byrnes Trucking, and Blue Water (related to JB Trucking) on site- Removed the additional soil. 07/05/94: Posillico Brothers Asphalt letter- 505.72 TONS of soil was processed by us. Includes copies of the disposal papers. 07/06/94: Letter to ITC- No further cleanup requirements at this time. State to seek reimbursement for the lab costs. 07/20/94: DEC closed regional file; Cleanup satisfactory; no further remedial requirements at this time."

Telephone: 978-318-8238
INST ID: 59086
County: SUFFOLK
RAB: Not reported
CORPS_DIST: New England District (NAE)
NPL Status: Not Listed
CTC: 478.5
Current Owner: Other Federal Government
Future Prog: Not reported
Description:

The project area is a former NIKE battery used by the U.S. Army as a surface-to-air missile launch and control area. The launch area portion of the site is currently used by the Army as a reserve center. The control area portion of the site is owned by the Town of Brookhaven, New York and was obtained for use as a park, although to date the area has gone unoccupied. The Department of Defense (DOD) improvements to the site were typical of NIKE base construction. The Town of Brookhaven has requested the removal of the underground tanks, transformers, 4 buildings, partial removal of 1 building, and an electrical vault. They have not used any of the improvements. It is proposed that only the tanks and transformers be removed. The buildings and electrical vault do represent safety hazards, however, they are in an area not readily accessible to the public. The site is unoccupied and is adjacent to some Department of Defense housing units and is proximate to the Shoreham Recreation Center. There has been some vandalism at the site which is accessible through cut out sections of chain link fence.

NIKE NY-25 CON AREA (Continued)

1007372645

<p>Current Program: History:</p>	<p>Not reported The subject property of 149.02 acres was acquired by the Federal Government specifically to meet the requirements of the United States Army's Nike Missile Program for defense of the New York metropolitan area. Following termination of the Nike Missile Program, a disposal action was approved by the Assistant Secretary of Defense (Installations and Logistics) and a Disposal Report was submitted to the Congressional Armed Services Committee pursuant to Title 10, United States Code, Section 2662. By Quitclaim Deed dated 28 February 1973, 26.62 acres in fee were conveyed by the Secretary of Interior to the Town of Brookhaven, New York. A restrictive clause in this deed states that subject property can be used only for public park or public recreation purposes. Subject deed also contains a reversionary clause for national defense purposes. Approximately 6.30 acres was retained by D.O.D. for housing for military personnel. Ingrant Permits NYDRE (M) 3921 (1.63 acres) and NYDRE (M) 3927 (73.37 acres) were terminated as of 28 February 1973. Subject property (75.00 acres) was returned to the Department of Energy-Brookhaven National Laboratories. On or about 1 September 1977, the Department of Energy, in accordance with the Federal Property and Administrative Services Act of 1949, transferred 17.70 acres to the Department of the Army for use as an Army Reserve Center.</p>

 DEC Memo: "2/26/2009 15:30 Brian D. On Site, Spoke with Hilary who showed me the site. Per Hilary -There was a fire involving the boiler, after the fire was extinguished, the oil leaked out. -Tank not involved -2 to 3 buckets of contaminated soil excavated. Upon Inspection Found -Boiler is on a concrete pad. Pad is stained, no free product. -Soil excavated from around the concrete pad to approx 6 d. -No fuel oil odors in the soil. -Advised Hilary to bag the soil and dispose in trash. 16:00 Off site Minor release, soil excavated. CONTAMINATED SOIL EXCAVATED"

Remarks: "1127 The caller advised the oil tank is not able to be used due to oil covering the outside of the tank. The caller is not the responsible party. The caller responded to the location because social services contact the company to have them deliver oil. The caller is not a regular customer. The last time the company was at the address was a year ago. The fuel valve is currently off at this time."
