

**OFF-BASE DRINKING WATER
SAMPLING NEAR MARINE CORPS
AUXILIARY LANDING FIELD BOGUE**

The Navy and Marine Corps are conducting drinking water well sampling near Marine Corps Auxiliary Landing Field Bogue beginning in June 2023. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in these drinking water wells due to past use of firefighting foam or other PFAS-containing materials on base. Although your property is within the sampling area, we will not need to sample your drinking water. We believe your property either uses public drinking water or does not have a drinking water well.

If our records are incorrect, and you have a drinking water well on your property, the Navy and Marine Corps would like permission to sample your drinking water at no cost to you. You may schedule a drinking water well sampling appointment by calling **877-MCBOGUE (877-622-6483)** and leaving a message with your name, property address, and telephone number.

We also invite you to attend an Open House:

**Tuesday, June 27, 2023 | anytime between 5–7 p.m.
Carteret County Aquatic and Wellness Center
(also known as The GYM)
300 Taylor Notion Road, Cape Carteret, North Carolina**

We will have informational displays about this sampling along with representatives from the Navy, Marine Corps, North Carolina Department of Environmental Quality, North Carolina Department of Health and Human Services, and Carteret County Health Department available to answer questions you may have.

We are committed to keeping the public informed of the Navy and Marine Corps drinking water sampling. For more information, please visit our website at: <https://www.navfac.navy.mil/BoguePFAS>.
