

# OFF-BASE DRINKING WATER SAMPLING NEAR NAVAL WEAPONS STATION EARLE

The Navy is conducting drinking water well sampling near NWS Earle beginning in February 2023. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in these drinking water wells due to past use of firefighting foam or other PFAS-containing materials on base.

**Your property is not located within the sampling area so the Navy is not asking to sample your drinking water at this time.** Some properties close to yours may be located within the sampling area, and the Navy is inviting you to attend an Open House:

**Thursday, February 23, 2023**  
**Anytime between 4:00 p.m. and 6:00 p.m.**  
**Courtyard Banquet\***  
**30 E. Main Street, Freehold, New Jersey 07728**

We will have informational displays about this sampling along with representatives from the Navy, U.S. Environmental Protection Agency, New Jersey Department of Environmental Protection, and Agency for Toxic Substances and Disease Registry available to answer questions you may have.

We are committed to keeping the public informed of the Navy's off-base drinking water sampling. For more information, please visit our website at:  
**[www.navfac.navy.mil/nwsearlepfas](http://www.navfac.navy.mil/nwsearlepfas)**.

\*Entrance and free parking are located behind the building.
