

PRIVATE DRINKING WATER WELL SAMPLING NEAR NSA MECHANICSBURG

The Navy is conducting private drinking water well sampling near NSA Mechanicsburg beginning in **June 2025**. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in these private drinking water wells due to past use of firefighting foam or other PFAS-containing materials at NSA Mechanicsburg. Although your property is within the sampling area, we will not need to sample your drinking water. We believe your property either uses public drinking water or does not have a private drinking water well.

If our records are incorrect, and you have a private drinking water well on your property, the Navy would like permission to sample your private drinking water at no cost to you. You may schedule a private drinking water well sampling appointment by leaving a message at **(800) 730-1478** with your name, property address, and telephone number.

We also invite you to attend an Open House on **June 16, 2025 anytime between 6 and 8 p.m. at the West Shore Elks #2257 at 108 St Johns Church Rd, Camp Hill, PA 17011**. We will have informational displays about this sampling along with representatives from the Navy, U.S. EPA Region III, Pennsylvania Department of Environmental Protection, and Pennsylvania Department of Health available to answer your questions.

We are committed to keeping the public informed of the Navy's drinking water sampling. For more information, please visit our website at: www.navfac.navy.mil/mechanicsburgpfas

For more information, contact the NSA Mechanicsburg Public Affairs Office at: MECH_PHIL_PAO@us.navy.mil
