

PRIVATE DRINKING WATER WELL SAMPLING NEAR NAVAL AUXILIARY LANDING FIELD FENTRESS

The Navy is conducting drinking water well sampling near Naval Auxiliary Landing Field (NALF) Fentress beginning in June 2025. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in drinking water wells due to past use of firefighting foam or other PFAS-containing materials on the base. Our records indicate the drinking water consumed at this property may come from a well.

This property may be a rental. A separate notification letter asking permission to sample the drinking water well on this property has been sent to the property owner. No action is required on your part to schedule sampling. This sampling would be at no cost to you or the property owner.

We invite you to attend an open house on June 10, 2025, any time between 5:00 p.m. and 7:00 p.m. at the Hickory Ruritan Club, 2752 Battlefield Boulevard South, Chesapeake, VA 23322. We will have informational displays about this sampling along with representatives from the Navy, Virginia Department of Environmental Quality, and Chesapeake Health Department available to answer questions you may have.

The Navy is committed to keeping the public informed of their drinking water well sampling. For more information, please visit this website: <https://go.usa.gov/xSvt9>.
