

PRIVATE DRINKING WATER WELL SAMPLING NEAR NAVAL AUXILIARY LANDING FIELD FENTRESS

The Navy is conducting drinking water well sampling near Naval Auxiliary Landing Field (NALF) Fentress beginning in June 2025. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in drinking water wells due to past use of firefighting foam or other PFAS-containing materials on the field. We believe no drinking water wells are present on your property.

If our records are incorrect, and you have a drinking water well on your property, the Navy would like permission to sample your drinking water at no cost to you. Drinking water sampling appointments are being scheduled beginning in June 2025. You may schedule a sampling appointment by leaving a message at **1-800-931-6118**. Please include your name, property address, and telephone number.

The Navy is committed to keeping the public informed of their drinking water sampling. For more information, please visit this website: **<https://go.usa.gov/xSvt9>**.
