

***Notice of Navy's Invitation for  
Public Comment on the  
Engineering Evaluation and Cost Analysis  
for Private Drinking Water  
Naval Air Station Oceana  
Virginia Beach, Virginia***

The Navy, Virginia Department of Environmental Quality (VDEQ), and U.S. Environmental Protection Agency (USEPA), invite public comment on the Draft Final Engineering Evaluation and Cost Analysis (EE/CA) for Naval Air Station (NAS) Oceana, in Virginia Beach, Virginia.

The EE/CA evaluates alternatives to address current exposure potential to groundwater used as drinking water at an off-base property with perfluorooctanoic acid (PFOA)/perfluorooctane sulfonate (PFOS) at levels greater than the USEPA Lifetime Health Advisory. Alternatives are intended to protect our off-base neighbors from drinking private well water above the USEPA's Lifetime Health Advisory for PFOS and PFOA.

The EE/CA examined five alternatives based on effectiveness, ability to implement, and cost.

The Navy found that the connection to city water alternative was recommended as the preferred alternative. The Draft Final EE/CA is now available for public comment prior to finalization.

The Draft Final EE/CA may be viewed online at [www.cnic.navy.mil/oceana\\_water\\_info](http://www.cnic.navy.mil/oceana_water_info) or at the following location from February 17, 2020 through March 17, 2020 during normal business hours:

Meyera E. Oberndorf Central Library  
4100 Virginia Beach Boulevard  
Virginia Beach, VA 23452  
(757) 385-0150

The public is invited to provide written comments on the Draft Final EE/CA for NAS Oceana. Written comments will be accepted until March 17, 2020 at the following address:

Naval Air Station Oceana  
Attn: Angela Jones  
9742 Maryland Avenue, Bldg N-26; Room 3208  
Virginia Beach, Virginia 23511  
Phone: (757) 341-0485  
E-mail: [angela.jones1@navy.mil](mailto:angela.jones1@navy.mil)

If requested, a public meeting will be held by representatives of the Navy to clarify public questions or comments on the EE/CA.
