REMINDER:
PRIVATE DRINKING WATER WELL SAMPLING FOR PFAS NEAR NAVAL AIR STATION OCEANA

The Navy is conducting drinking water well sampling near Naval Air Station (NAS) Oceana starting in August 2025. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in drinking water wells due to past use of firefighting foam or other PFAS-containing materials on base. Our records indicate your property is located within the sampling area, has a drinking water well, and you have not yet scheduled an appointment to have your drinking water well sampled. The Navy is requesting permission to sample your drinking water well at no cost to you. If you have scheduled an appointment, please disregard this notice.

Drinking water sampling appointments are being scheduled in August 2025. If you are the property owner, you may schedule a sampling appointment by leaving a message at **1-800-931-6118**. Please include your name, property address, and telephone number. A Navy representative will return your call.

If your drinking water is provided by a public water system, or if you do not have a drinking water well, please call **1-800-931-6118** to let us know so we can update our records.

The Navy is committed to keeping the public informed of its drinking water well sampling. For more information, please visit this website: **https://go.usa.gov/xSvtK**.
