

## **SECOND NOTICE TO REQUEST PERMISSION TO SAMPLE YOUR DRINKING WATER WELL.**

*The Navy is offering to sample your drinking water for certain per- and polyfluoroalkyl substances (PFAS) because your drinking water is supplied by a well that is located in the sampling area.*

PFAS may be present in drinking water wells near Naval Air Station Whiting Field due to past uses of firefighting foam, specifically aqueous film-forming foam, on the base. There is no legal requirement to conduct this drinking water sampling; it is a voluntary measure to ensure that our neighbors are not drinking water above the U.S. Environmental Protection Agency's drinking water health advisory levels. The Navy is continuing the offer to sample drinking water from wells located in the sampling area that have not already been sampled.

***Additional drinking water sampling appointments are being scheduled for February 2–5, 2022. To schedule your drinking water well appointment, please call the toll free number and leave a message at 844-NASWFLD (844-627-9353).***

For more information on this project, please visit the website at <https://go.usa.gov/xAEQF> or access the virtual open house at [www.WhitingFieldPFAS.com](http://www.WhitingFieldPFAS.com).
