Dear [redacted]:

SUBJECT: DRINKING WATER WELL SAMPLING RESULTS NEAR NAVAL AIR STATION WHITING FIELD

Thank you for recently allowing the Navy to sample your drinking water well for specific per- and polyfluoroalkyl substances (PFAS). I am writing to you today about the results of the sample collected from your property's drinking water well on January 6, 2026.

Enclosure (1) contains a tabulated summary of the sample results. Based on these results, no action for your drinking water is authorized by Navy at this time, in accordance with the Department of Defense PFAS Interim Action Levels and Section 317 of the Fiscal Year 2026 National Defense Authorization Act.

Enclosures (1), (2), and (3) provide the validated results for your drinking water well sample, which was analyzed using United States Environmental Protection Agency (U.S. EPA) drinking water test method 533.

Information from Department of War (DoW) and U.S. EPA can be found on the following websites:

DoW: https://www.acq.osd.mil/eie/eer/ecc/pfas/
U.S. EPA: https://www.epa.gov/pfas

Please be assured, the Navy continues to work in partnership with the U.S. EPA and Florida Department of Environmental Protection. The Navy is committed to ensuring the safety of its neighbors and will keep you informed of developments that may impact you and our community.

The Navy appreciates your continued understanding and cooperation with its PFAS investigation. If you have any questions, please contact the Navy at 850-623-7341 or cnic_se_whtg_pao@us.navy.mil.

Sincerely,

THEODORE ELKINS
Captain, U.S. Navy
Commanding Officer
