PRIVATE DRINKING WATER WELL SAMPLING NEAR OUTLYING LANDING FIELD SILVERHILL

The Navy is conducting drinking water well sampling near Outlying Landing Field (OLF) Silverhill, an OLF for Naval Air Station Whiting Field, beginning in August 2026. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in drinking water wells due to past use of firefighting foam or other PFAS-containing materials on base. Our records indicate no drinking water wells are present on your property.

If our records are incorrect, and there is an active drinking water well on your property, the Navy would like permission to sample your drinking water well at no cost to you. Drinking water sampling appointments are being scheduled for August 3–September 16, 2026. If you are the property owner, you may schedule a sampling appointment by leaving a message at **844-NASWFLD (844-627-9353)**. Please include your name, property address, and telephone number. A Navy representative will return your call. If you occupy this property but are not the owner, please contact the property owner about scheduling a sampling appointment.

The Navy is committed to keeping the public informed of its drinking water well sampling. You are welcome to visit our website at **https://www.navfac.navy.mil/NASWF** for additional information on the project background and the drinking water well sampling.

The Navy will also be hosting an in-person open house event at a later date. A separate invitation will be mailed to you with the event date, time, and location once the open house is scheduled.
