NOWELL

The Navy is conducting drinking water well sampling near Naval Weapons Station Seal Beach Detachment Norco in April 2024. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in drinking water wells due to past use of firefighting foam or other PFAS-containing materials on base. Although your property is within the sampling area, we will not need to sample your drinking water. We believe your property either uses public drinking water or does not have a drinking water well.

If our records are incorrect, and you have a drinking water well on your property, the Navy would like permission to sample your drinking water at no cost to you. You may schedule a drinking water well sampling appointment by leaving a message at **855-NORCO-CA (855-667-2622)** or emailing **norco.ptas@jacobs.com** with your name, property address, and telephone number.

We also invite you to attend an informational Open House:

Tuesday, April 23, 2024
anytime between 5–7 p.m.
Fairfield Inn & Suites
3441 Hamner Ave, Norco, CA 92860

We will have informational displays about this sampling along with representatives from the Navy and the California Environmental Protection Agency (CalEPA) available to answer questions you may have.

We are committed to keeping the public informed of the Navy's drinking water sampling. For more information, please visit our website at: **www.navfac.navy.mil/DetNorco_Offbase_PFAS**.
