

PRIVATE DRINKING WATER WELL SAMPLING NEAR NAVAL SUPPORT FACILITY THURMONT

The Navy is conducting drinking water well sampling near Naval Support Facility (NSF) Thurmont starting in September 2025. The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which are present in the groundwater at NSF Thurmont and may be present in drinking water wells due to past use of firefighting foam. Our records indicate the drinking water consumed at this property may come from a well.

A separate notification letter has been sent to the property owner asking permission to sample the drinking water well on this property. No action is required on your part to schedule sampling. This sampling is at no cost to you or the property owner.

The Navy is hosting an open house public meeting about these activities near NSF Thurmont. This meeting will have informational displays, along with representatives from the Navy and its partnering agencies.

**Wednesday, September 17, 2025 | anytime between 5–7 p.m.
Camp Round Meadow Gymnasium
Catoclin Mountain Park 14840 Manahan Rd, Sabillasville, MD 21780**

The Navy is committed to keeping the public informed of its drinking water well sampling. For more information, please visit this website: www.navfac.navy.mil/ThurmontSampling
