WET UTILITIES IV MACC GROUP 0083

IDIQ SMALL BUSINESS SET-ASIDE MACC FOR PAVING AT VARIOUS LOCATIONS WITHIN THE NAVFAC SOUTHWEST AREA OF RESPONSIBILITY INCLUDING BUT NOT LIMITED TO ARIZONA, CALIFORNIA, COLORADO, NEVADA, NEW MEXICO, AND UTAH

SCOPE OF WORK: The work to be performed under this contract provides for new construction, renovation, and repair within the NAICS code listed, primarily by design-build or secondarily by design-bid-build, of wet utilities construction projects, and related structures, at various locations predominantly within the NAVFAC Southwest area of responsibility (AOR) including, but not limited to, California, Arizona, Colorado, Nevada, New Mexico, and Utah, but will be available to the NAVFAC Atlantic AOR as approved by the Contracting Officer. It is anticipated that the majority of the work will be performed in San Diego County, California. Types of projects may include, but are not limited to: water, steam, sewer, and storm sewer lines; wells, mains, pumping stations, treatment plants, storage tanks and facilities and related work. All structures (including buildings) that are integral parts of water, steam, and sewer networks (e.g., storage tanks, pumping stations, water treatment plants, and sewage treatment plants) are included. This contract does not include waterfront related construction or oil and gas pipeline construction

Contract amount: \$249,000,000 aggregate Task Order Range: \$300,000 - \$20,000,000 NAICS: 237110	Award Date: November 14, 2018 Base year + 4 option years Contract expires: November 13, 2023

**PAVING IV MACC
GROUP 107**

INDEFINITE DELIVERY INDEFINITE QUANTITY (IDIQ) MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC) SMALL BUSINESS SET-ASIDE FOR PAVING PROJECTS AT VARIOUS GOVERNMENT INSTALLATIONS WITHIN THE NAVFAC SW AREA OF RESPONSIBILITY INCLUDING BUT NOT LIMITED TO CALIFORNIA, ARIZONA, NEVADA, UTAH, COLORADO, AND NEW MEXICO

SCOPE OF WORK: The work to be performed under this contract provides for new construction, renovation, and repair within the NAICS code listed, primarily by design-build or secondarily by design-bid-build, of streets and other paved areas at various government installations located in California, Arizona, Nevada, Utah, Colorado, and New Mexico. Types of projects may include, but are not limited to: repair of deteriorated asphalt and Portland cement concrete pavement (including full-depth or partial removal, repairs to subgrade and base materials, patching, slurry seal, crack cleaning, and replacement); cold milling of existing asphalt pavement; asphalt overlays; construction of new asphalt or Portland cement concrete pavement (including subgrade and base materials); and pavement marking (striping, reflective markers, signage). Projects may also include site work incidental to paving, including, but not limited to: clearing and grubbing; excavation and earthwork; storm drainage systems and structures; sidewalks; curbs and gutters; wheel stops; disposal and/or recycling of construction and demolition debris. This contract will not include airfield pavement construction.

Contract amount: \$99,000,000 aggregate

**WATERFRONT IV MACC
GROUP 0097**

IDIQ UNRESTRICTED MACC FOR NEW CONSTRUCTION, REPAIR, AND RENOVATION OF WATERFRONT FACILITIES AT VARIOUS GOVERNMENT INSTALLATIONS LOCATED IN CALIFORNIA, ARIZONA, NEVADA, UTAH, COLORADO, AND NEW MEXICO

SCOPE OF WORK: The work to be performed under this contract provides for new construction, renovation, and repair within the NAICS code listed, by design-build or design-bid-build, of waterfront structures and dredging at various locations primarily within the NAVFAC Southwest area of responsibility (AOR), including but not limited to, California, Arizona, Nevada, Utah, Colorado, and New Mexico, but will be available to the entire NAVFAC AOR as approved by the Chief of Contracting Office (CCO). However, it is anticipated that the majority of the work will be performed in California. Types of projects may include, but are not limited to: piers, wharves, quay walls, magnetic silencing facilities, bulkheads, sea walls, dry docks, boat ramps, docks and marinas, shore protection systems, rip rap, breakwaters, wave attenuation, mooring dolphins, buoys, primary and secondary fendering, pile driving, sheet piles, camels, separators, brows, and gangways. The work also includes the design and construction of all utilities for marine operations and other waterfront structures (both in and above water) related to waterfront operations (such as unexploded ordinance, crane rails, security, all applicable Federal, State, and local regulatory/environmental requirements, etc.) to support Navy vessels and port operations. It is anticipated that the majority of the work will involve dredging and disposal, demolition, marine pile driving, fender system replacement, marine concrete repairs, pier utilities repair and replacement, and small marine construction projects such as boat ramps and platforms.

NOTE: Each task order issued under this MACC valued at \$10,000,000 or less is REQUIRED to be set aside for the 2 small business MACC holders whenever the "rule of two" is satisfied for that task order. If the "rule of two" cannot be satisfied on a task order valued at \$10,000,000 or less, the task order will be solicited to the entire MACC contractor pool.

Contract amount: \$750,000,000 aggregate

Award Date: January 14, 2021

Task Order Range: \$50,000 - \$100,000,000

2-year Base + 1 (3-year) Option

NAICS: 237990

Contract expires: January 13, 2026

N62473-17-D-4617 MECHANICAL, ELECTRICAL AND FIRE PROTECTION ENGINEERING SERVICES
LOCATION: Projects at various military installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico, Utah, and Worldwide. The preponderance of work is expected to be in Southern California.

SCOPE OF WORK:

The type of Mechanical, Electrical, and Fire Protection services expected to be performed under this contract are as follows:

Primary A-E services required: Preparation of Requests for Proposals (RFP) for Design Build (DB) projects; Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); Mechanical/Electrical Site Investigations, Studies, Surveys, and Reports.

Secondary A-E services required: Cost estimates; construction contract support services (CCSS) or post construction award services (PCAS); Fire Protection Engineering Designs, Studies, Surveys and Site Investigation (e.g. fire risk/hazard analysis, life safety code analysis, fire modeling and engineering documentation, antiterrorism, and final inspections and tests of installed Fire Protection Systems.

Fire Protection surveys shall be conducted within the guidelines established by OPNAVINST 11320.23G).

Support A-E services which may be required: Technical reviews of government-prepared RFP for DB projects and/or full plans and specifications for DBB projects; preparation of planning and programming support documents; incidental architectural, civil, structural, geotechnical, and environmental work; identification and abatement methods for existing asbestos-containing materials, lead-based paint, and other hazardous materials.

Types of projects will include, but are not limited to, sustainable energy documentation (e.g. Energy Master Planning, Commissioning, Life Cycle Cost, LEED/Third Party Certifications, Title 24 Energy Compliance documents, ASHRAE 90.1 compliance documents, and ASHRAE 90.1 Performance Rating Method reports); Military Construction (MILCON), new construction, major repair/renovation of: onsite power generating systems (e.g. solar, cogeneration); control systems (e.g. microgrid, utility control systems); heating, ventilation, air conditioning and control systems (e.g. exhaust systems, direct digital control schematic and architecture); energy supply systems (i.e. above and below ground steam distribution, high temperature/pressure water, refrigeration systems, and natural gas including earthquake shut off valves); plumbing systems; interior and exterior electrical power systems (e.g. interior building power, medium and low voltage distribution systems, primary and secondary substations, Uninterruptable Power Supply (UPS), emergency generators); communication and security systems (e.g. cable TV, electronic security systems); fire protection systems (e.g. fire sprinklers, fire alarm and detection systems, fire alarms and fire resistant building assemblies); and lighting systems for airfield, operational and training, commercial, institutional, industrial, research development, quality of life facilities, etc.

N62473-17-D-4621
 LANDSCAPE ARCHITECTURAL SERVICES,
 SMALL BUSINESS SET-ASIDE

LOCATION: Projects under this contract will occur at various military installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico, and Utah; but may be available to the NAVFAC area of responsibility (AOR) as approved by the NAVFAC Southwest (SW) Chief of Contracting Office (CCO). The preponderance of work is expected to be in southern California.

SCOPE OF WORK: A-E Design and Engineering Services shall mainly provide for, but not be limited to, LANDSCAPE ARCHITECTURAL related services.
 Primary A-E services required: Preparation of Requests for Proposals (RFP) for Design Build (DB) projects; Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); site Investigations to support new development of facilities on raw land and/or redevelopment of existing facilities on developed sites.
 Secondary A-E services required: Studies/reports related to the design of new facilities and/or renovation/repair of existing facilities; cost estimates; construction contract support services (CCSS) or post construction award services (PCAS).
 Support A-E services which may be required: Technical reviews of government-prepared RFP for DB projects and/or full plans and specifications for DBB projects; preparation of planning and programming support documents; horticultural/arboricultural analysis and documentation, landscape architectural expertise in climate areas outside of California; coordination of various technical disciplines, such as, architectural, civil, and environmental.
 Type of projects may include, but are not limited to, extensive irrigation design, including wholesale water auditing and report preparation and central control design; new construction and renovation/repair of large operational and training, commercial, institutional, industrial, research and development, medical, and quality of life buildings/facilities, recreational areas and parks, golf courses, site re-vegetation and or stabilization areas.

**MULTI-DISCIPLINE ARCHITECT-ENGINEER SERVICES FOR LARGE PROJECTS
UNDER THE MILITARY CONSTRUCTION (MILCON) PROGRAM
UNRESTRICTED
NAVFAC SW**

LOCATION: VARIOUS MILITARY INSTALLATIONS LOCATED IN THE NAVFAC SOUTHWEST AREA OF RESPONSIBILITY (AOR): CALIFORNIA, ARIZONA, NEVADA, COLORADO, NEW MEXICO, UTAH; BUT MAY BE AVAILABLE WORLDWIDE AS APPROVED BY THE NAVFAC SW PROCURING CONTRACTING OFFICER. The preponderance of work is expected to be in Southern California.

SCOPE OF WORK:

The type of A-E services expected to be performed under this contract are primarily preparation of Design-Bid-Build (DBB) construction contract packages. These include preparation of full plans and specifications, site surveys and investigations (i.e. geotechnical, utilities, topographical, etc.), cost estimating, and post construction award services (PCAS). Additionally, preparation of Request for Proposals (RFP) packages for Design-Build (DB) projects, preparation of planning and programming support documents, and miscellaneous studies related to the designs of new facilities may be required.

Primary A-E services will include preparation of Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); site investigations (i.e. utility investigations, geotechnical investigations, surveying, etc.), cost estimates, and post construction award services (PCAS). Additionally, preparation of Request for Proposals (RFP) for Design-Build (DB) projects and studies or reports related to the designs of new facilities may be required.

Support A-E services may be required to perform technical reviews of government-prepared designs and design-build packages, preparation of planning and programming support documents, coordination of various technical disciplines, and identification and abatement methods for existing hazardous materials such as asbestos-containing materials and lead-based paint.

Types of projects may include, but are not limited to, new construction and repair/renovation of commercial, institutional, industrial, operational and training, research and development, medical, and quality of life facilities.

Contract amount: \$230,000,000	Award Date: Award Date: November 21, 2017 Base + 4 Option Years Contract Expires: November 20, 2022
Task Order Range: \$300,000 - \$10,000,000

COST ENGINEERING, VALUE ENGINEERING, SCHEDULING
SMALL BUSINESS SET-ASIDE
NAVFAC SW

LOCATION: Various military installations located in the NAVFAC Southwest (SW) Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico, Utah, but may also include work worldwide. The preponderance of work is expected to be in Southern California.

SCOPE OF WORK:

Cost Engineering (CE) shall be in support of Analyses, Reports, Designs, and Change Orders. All Cost Estimates shall be broken down by the necessary material, labor and equipment elements and be prepared using the Parametric Cost Estimating System (PACES) and/or Micro-Computer Aided Cost Estimating System Second Generation (MII) with the most recent RSMMeans database or MII costbook library, depending on the overall value of the task order involved and at what stage the cost is being developed.

Cost Estimates shall be prepared and validated through site/field investigations, studies, surveys, analyses, reports, schematic layouts/sketches, design drawings, as-builts and program requirements for engineering and architectural work elements.

Services may include construction cost reduction evaluations and recommendations; bid analyses and verifications; validations of DD Form 1391 scope/cost estimate; peer review of cost estimates; review of and provide technical analysis of contractor change order cost proposals; and assistance with claims, litigations, and negotiations with boards/committees.

Value Engineering (VE) services shall include facilitating and forming multi-discipline technical teams to conduct VE and/or Function Analysis Concept Development (FACD) Workshops for variety of projects. Services in support of VE and FACD Workshops may include site investigations; preparation and/or review of engineering studies/reports; cost estimates; facility and infrastructure assessments; risk assessments; Life Cycle Cost Engineering and/or Total Ownership Cost analyses; and schematic layouts/sketches.

Scheduling shall be in support of Analyses and Change Orders. All schedules shall be prepared using Primavera (P6) version 15.2 or later. Services may include preparation of schedules and construction cost loaded schedules; review/analysis of base line contractor schedules and schedule updates in accordance with UFGS Section 01 32 17.05 20 and using the NAVFAC Schedule Review checklist; review/analysis of contractor change orders; time impact analysis (TIA); and assistance with claims, litigations, and negotiations with boards/committees.

Types of projects that are similar in scope to design-build/design-bid-build of new construction, repair, and renovation of commercial, institutional, industrial, operational and training, research and development, medical, and quality of life facilities; utility infrastructures; waterfront structures; and civil engineering related structures (e.g. bridges; roads and paving, entry control points and entry gates; airfield runways/taxiways/aprons; outdoor recreational fields; outdoor shooting and combat training ranges).

Contract amount: \$30,000,000 Task Order Range: \$5,000 - \$750,000 NAICS: 541330	Award Date: May 14, 2020 5 Years (2-year base + 3-Year Option) Contract Expires: May 13, 2025

**MECHANICAL ENGINEERING, ELECTRICAL ENGINEERING
AND PLUMBING A-E SERVICES
SMALL BUSINESS SET-ASIDE
NAVFAC SW**

LOCATION: Various projects at various military installations located in the NAVFAC SW AOR: California, Arizona, Nevada, Colorado, New Mexico, Utah, but may include work worldwide. The preponderance of work is expected to be in Southern California.

SCOPE OF WORK:

Primary A-E services required: Preparation of Requests for Proposals (RFP) for Design Build (DB) projects; Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); Mechanical/Electrical Site Investigations, Studies, Surveys, and Reports.

Secondary A-E services required: Cost estimates; construction contract support services (CCSS) or post construction award services (PCAS); Fire Protection Engineering Designs, Studies, Surveys and Site Investigation (e.g. fire risk/hazard analysis, life safety code analysis, fire modeling and engineering documentation, antiterrorism, and final inspections and tests of installed Fire Protection Systems).

Support A-E services which may be required: Technical reviews of government-prepared RFP for DB projects and/or full plans and specifications for DBB projects; preparation of planning and programming support documents (such as DD1391 documents); incidental architectural, civil, structural, geotechnical, and environmental work; identification and abatement methods for existing asbestos-containing materials, lead-based paint, and other hazardous materials.

Types of projects that are similar in scope include: sustainable energy documentation (e.g. Energy Master Planning, Commissioning, Life Cycle Cost, LEED/Third Party Certifications, Title 24 Energy Compliance documents, ASHRAE 90.1 compliance documents, and ASHRAE 90.1 Performance Rating Method reports); new construction, major repair/renovation of: onsite power generating systems (e.g. solar, cogeneration); control systems (e.g. microgrid, utility control systems); heating, ventilation, air conditioning and control systems (e.g. exhaust systems, direct digital control schematic and architecture); energy supply and distribution systems (e.g. above and below ground steam distribution, medical gas, high temperature/pressure water, refrigeration systems, and natural gas including earthquake shut off valves); plumbing systems; interior and exterior electrical power systems (e.g. interior building power, medium and low voltage distribution systems, primary and secondary substations, Uninterruptable Power Supply (UPS), emergency generators); communication and security systems (e.g. cable TV, electronic security systems); fire protection systems (e.g. fire sprinklers, fire alarm and detection systems, fire alarms and fire resistant building assemblies); and lighting systems for airfield, operational and training, commercial, institutional, industrial, research development, quality of life facilities, and other similar facilities.

WATERFRONT ENGINEERING SERVICES
UNRESTRICTED
NAVFAC SW

LOCATION: VARIOUS MILITARY INSTALLATIONS LOCATED IN THE NAVFAC SOUTHWEST (SW) AREA OF RESPONSIBILITY (AOR): CALIFORNIA, ARIZONA, NEVADA, COLORADO, NEW MEXICO, AND UTAH; BUT MAY BE AVAILABLE WORLDWIDE.

SCOPE OF WORK:

The type of A-E services expected to be performed under this contract may include the preparation of Design-Build (DB) Request for Proposals (RFP), Design-Bid-Build (DBB) construction contract packages (i.e., drawings, specifications, basis of design, design analysis, engineering calculations, cost estimate, etc.), reports/studies including utilities studies, technical reviews of Government prepared RFP packages for DB projects, Government prepared design documents for DBB projects, site investigations; to support new development of facilities on raw land, or redevelopment of existing facilities on developed sites; and support and coordination of various technical disciplines, such as, architectural, electrical, civil, structural, geotechnical, and environmental.

A-E services may also include preparation of DD Form 1391 or similar planning and programming related documents and Post Construction Award Services (PCAS).

A-E services may require antiterrorism, fire protection, identification and abatement methods of existing asbestos containing materials, lead-based paint and other hazardous materials; addressing constructability issues, such as, phasing of work in occupied and unoccupied facilities; and disruption of both utilities and operations of the site and building occupants during construction.

Types of projects may include, but are not limited to, new construction, repair, and renovation of piers, marinas, buoys, wharves, quay walls, bulkheads, fendering, mooring, shore protection systems, dry docks, magnetic silencing facility, dredging, and utilities for marine operations and waterfront structures.

STRUCTURAL ENGINEERING SERVICES
SMALL BUSINESS SET-ASIDE
NAVFAC SW

LOCATION: Various Navy and Marine Corps facilities and installations located in the NAVFAC Southwest Area of Operations (AOR), including California, Arizona, Nevada, Colorado, New Mexico, and Utah. Projects may also occur within the NAVFAC Atlantic AOR as approved by the NAVFAC Southwest (SW) Chief of Contracting Office. The preponderance of work will be in Southern and Central California.

SCOPE OF WORK:

The type of A-E services expected to be performed under this contract are primarily preparation of Design-Bid-Build (DBB) construction contract packages, including fully designed plans and specifications, preparation of Request for Proposals (RFP) packages for Design-Build (DB) projects, structural and/or seismic investigations, studies, evaluations, and recommendations for upgrades to existing facilities. Additionally, antiterrorism design and design to prevent progressive collapse, innovative structural system design, and experience applying sustainability concepts may be required.

Primary A-E services will include preparation of fully designed plans and specifications for Design-Bid-Build construction projects; preparation of Request for Proposal (RFP) packages for Design-Build (DB) projects; structural and/or seismic investigations, studies, evaluations and recommendations for upgrades to existing facilities. Additionally, anti-terrorism design related to analysis to blast effects and design to prevent progressive collapse; innovative structural system design including seismic base isolation, seismic damping, passive dissipating systems, and use of fiber reinforced polymers may be required.

Support A-E services may be required to perform technical reviews of government-prepared designs and design-build packages, post construction award services (PCAS), cost estimating, and coordination of various technical disciplines.

Types of projects may include, but are not limited to, new construction, repair/renovation, and studies of commercial, institutional, industrial, operation and training, research and development, medical, and quality of life facilities.

Contract amount: \$30,000,000 Task Order Range: \$5,000 - \$3,500,000 NAICS: 541330	Award Date: October 29, 2018 Base + 4 Option Years Contract Expires: October 28, 2023

CIVIL ENGINEERING SERVICES
UNDER THE MILITARY CONSTRUCTION PROGRAM
UNRESTRICTED
NAVFAC SW

LOCATION: Various Navy and Marine Corps facilities and installations located in the NAVFAC Southwest Area of Responsibility (AOR), including California, Arizona, Nevada, Colorado, New Mexico, Utah, but may also include work worldwide. The preponderance of work will be in Southern and Central California.

SCOPE OF WORK:

Primary A-E Services Required: Preparation of Requests for Proposals (RFP) for Design Build (DB) projects; Design-Bid-Build (DBB) construction contract packages (i.e., full plans and specifications); Site Investigations, Studies, Surveys, and Reports.

Secondary A-E Services Required: Cost estimates; construction contract support services (CCSS) or post construction award services (PCAS);

Support A-E Services may require: Technical reviews of government-prepared RFP for DB projects and/or full plans and specifications for DBB projects; preparation of planning and programming support documents (such as DD1391 documents); incidental architectural, structural, geotechnical, mechanical, electrical, and environmental work; identification and abatement methods for existing asbestos-containing materials, lead-based paint, and other hazardous materials.

Types of projects may include, but are not limited to, new construction, repair, and renovation of the following: wet utility systems (water, wastewater, recycled, and stormwater); airfield pavement including runways, taxiways and aprons; roads and paving; bridges; entry gates/control points; outdoor recreational fields; outdoor shooting and combat training ranges; erosion control, stormwater management, and low impact development design; and other related work.

Contract amount: \$99,000,000

Task Order Range: \$200,000 - \$5,000,000

NAICS: 541330

Award Date: June 14, 2019

5 Years (5 year base)

GEOTECHNICAL ENGINEERING SERVICES
8(A) SET-ASIDE
NAVFAC SW

LOCATION: The work for this contract will occur at various Navy and Marine Corps facilities and other government installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico and Utah. The preponderance of work will be in Southern California.

SCOPE OF WORK:

A-E Design and Engineering Services shall mainly provide for, but not be limited to, GEOTECHNICAL ENGINEERING. Required services are for Geotechnical Engineering Services for design; subsurface/field investigation; reports/studies including design failure reports of facilities, pavements, and structures; safety inspection of existing facilities; material and soils testing of facility components; and environmental soils investigation.

The A-E may also be required to provide recommendations for planning, design and construction of foundations, earth structures, dams, or slopes; analysis of static and seismic stability; evaluations of geological fault; design or analysis of foundation and structural systems of existing facilities; and identification and abatement methods of hazardous materials within the project. Design and engineering deliverables may include plans, specifications, basis of design, cost estimates, design reviews, field and laboratory test results, analysis of test results, and reports/studies. Planned projects will cover, but are not limited to, new construction, repair, and alteration for a variety of sites and facilities. Task order scope may require support and coordination with various architectural and engineering disciplines including cost and environmental engineers.

Contract amount: \$7,500,000	Award Date: April 27, 2017
Task Order Range: \$2,000 to \$500,000	Base + 4 Option Years

INTERIOR DESIGN SERVICES
SMALL BUSINESS SET-ASIDE
NAVFAC SW

LOCATION: Projects under this contract will occur at various military installations located in the NAVFAC Southwest (SW) Area of Responsibility (AOR) (California, Arizona, Nevada, Colorado, New Mexico, and Utah) and the NAVFAC Pacific AOR (Hawaii, Japan, Guam).

SCOPE OF WORK:

INTERIOR DESIGN related services. The work will primarily include preparing Comprehensive Interior Design (CID) for various types of buildings and facilities.

A-E services required: Preparation of CID, including Structural Interior Design (SID) and Furniture, Fixtures and Equipment (FF&E) Interior Design. SID includes selection and coordination of interior finish materials that are integral to or attached to the building structure. FF&E interior design includes design, selection, specification, color coordination, and procurement documentation of the required items. SID packages will typically include furniture floor plans, finish schedules, and any supporting interior elevations, details, or plans necessary to communicate the building finish design and build out. FF&E packages will typically include placement plans, ordering and finish information on all freestanding furnishings and accessories, cost estimates, and best value determinations.

The types of buildings/facilities may include, but are not limited to, administration buildings, academic facilities, maintenance facilities, hangars, industrial/warehouse, bachelor enlisted/officer quarters, recreational facilities, dining facilities, medical facilities, laboratories, and consolidated clubs.

Additional services may include: developing the collateral equipment and FF&E budget for DD1391 planning and programming documents; preparation of the interior design portion of a design-build Request for Proposal (RFP) package, including developing the FF&E requirements and budget for the project; post-award review of a design-build contractor's CID submittals; verification of equipment and finishes during building construction; consultation during procurement, delivery, and installation of FF&E; supervision of furniture assembly and placement; developing standards for FF&E for a program or group of projects; and other related consultation.

PLANNING SERVICES
SMALL BUSINESS SET-ASIDE
NAVFAC SW

LOCATION: Various Navy and Marine Corps facilities and other government installations located in the NAVFAC Southwest Area of Responsibility (AOR): CA, AZ, NV, CO, NM and UT; but may be available to the NAVFAC AOR as approved by the NAVFAC SW Chief of Contracting Office (CCO). The preponderance of work is expected to be in Southern Calif.

1. PRIMARY A-E services

SHORE INFRASTRUCTURE PLANNING: Regional, installation & area development planning, to include vision plans, illustrative plans, district plans, land use plans, regulating plans, circulation and parking plans, green infrastructure plans (open space and sustainable development), renewable energy plans, primary utility network plans (including utility locations and capacity), future development plans, installation-wide planning & design standards, installation development programs (capital investment plans), electronic/web-based master planning; & other planning documents which incorporate sustainability principles such those outlined in UFC 2-100-01, Installation Master Planning.

2. SECONDARY A-E services

A. PROJECT PLANNING DOCUMENTS: MILCON & Special Project planning documentation (DD Form 1391) using Electronic Project Generator (EPG); demolition / footprint reduction; preliminary and parametric cost estimates; life cycle analysis; economic analyses (using the latest version of the Government's ECONPACK software); site approvals (ordnance, explosive safety, etc.); Anti-Terrorism/Force Protection (AT/FP); Navy Asset Evaluations (AE); Marine Corps Asset Audits; Basic Facilities Requirements (BFR) documentation; Facilities Planning Documents (FPD) using the government's web-based internet Naval Facilities Asset Data Store (iNFADS) program.

B. GEO-SPATIAL INFORMATION & SERVICE: The preparation of Geo-Spatial Data services includes: a) spatial and non-spatial data acquisition; loading data into enterprise GIS database systems in accordance with current spatial data standards (SDSFIE 3x); b) preparation of maps, datasets, data models, geo-processing models, automation scripts utilizing Microsoft Office, Adobe Acrobat, Oracle, AutoCAD, ESRI ArcGIS Product Suite; and c) GPS services which include the collection of GPS data using GPS equipment compatible with the NAVFAC SW Geo-Readiness Center (GRC).

3. SUPPORT A-E services: Architectural studies; civil engineering studies; land surveying and topographic mapping; landscape architecture and outdoor water conservation planning; Air Installation Compatible Use Zones (AICUZ) and or Range Air Installation Compatible Use Zones (RAICUZ); and leading group facilitation / charrettes, conducting training for either primary or secondary planning services.

ENCROACHMENT MANAGEMENT IMPLEMENTATION SERVICES
UNRESTRICTED
NAVFAC SW

NOTE: THIS CONTRACT IS INTENDED FOR USE ONLY BY NAVFAC SW
INTERGOVERNMENTAL BRANCH – CONTACT COR – MARY BETH DREUSIKE
(marybeth.dreusike@navy.mil) or CONTRACT SPECIALIST - HAL HAYES
(harold.hayes@navy.mil) FOR REVIEW AND APPROVAL OF USAGE OF THIS CONTRACT.
YOU MAY ALSO CONTACT NRSW ENCROACHMENT PROGRAM DIRECTOR - STEVE
CHUNG (steve.u.chung@navy.mil)

LOCATION: Projects under this contract will occur at various Navy and Marine Corps facilities and other government installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico, and Utah; but may be available to the NAVFAC area of responsibility (AOR) as approved by the NAVFAC Southwest (SW) Chief of Contracting Office (CCO).

SCOPE OF WORK:

The services required include support in implementing action items and/or mitigation measures, including, but not limited to, the following:

1. Land Use Planning: Analysis of local land use plans and implementing ordinances for compatibility with ongoing military operations; compilation of operational data in Geographic Information system (GIS) format and creation of land use maps with overlaid operational footprints; and analysis of military operational equities in and around the operational footprint, including maps of potential encroachment and analysis of stakeholder interests and types of encroachment concerns. Analyze the military operational equities in and around the operational footprint on and offshore to include maps and matrix detailing potential encroachment, in addition to a full written analysis of stakeholder interests, concerns, and type of encroachment concerns.
2. AICUZ/RAICUZ studies: Preparation of or updates to AICUZ/RAICUZ studies, including frequency and location of flight operations; analysis of land use compatibility, assessment of significant changes in operational characteristics such as additional aircraft and new platforms; preparation of noise impact studies; and safety analysis such as analysis of accident potential zones and clear zones.
3. Encroachment Action Plans (EAP): Preparation of or updates to EAPs with on- and off-shore operational footprints, tenant and operator mission requirements and footprint of outlying areas including updating Military Influence Areas (MIA) including line of sight, frequency spectrum, and readiness operational equities to reflect areas of critical concern; and identify methods and strategies to mitigate encroachment within the MIA. Also provide traffic analysis and associated studies where required. Provide detailed analysis and recommendations for strategic engagement with local community and affected stakeholders to implement findings and recommendations of the EAP.
4. Outreach Planning Materials: Preparation of outreach and compatibility brochures that detail operations, potential mission impacts, community outreach, and economic benefits of the military installation. The outreach planning materials will assist in the implementation of other studies/analysis, preparation of

communication plans, press releases, display boards, brochures, and slide presentations. Meeting support with community groups including, but not limited to, logistic materials for focus groups, land use forums, and open houses may also be required.

(continued on next page)

N62473-17-D-4622 continued...

5. Other related studies/analysis: Provide additional services to assist in implementation of encroachment management studies, Range Complex Management Plans; and other special planning, engineering, and encroachment support deliverables, such as analytical assessments, geospatial analysis, traffic studies, glint/glare and lighting studies, and socio-economic studies.

6. Strategic Engagement Plans (SEP): Provide SEPs to present and set forth compatible policy and regulatory guidance as identified in various encroachment management studies for federal, state, and local jurisdictions to consider in their General Plans, Zoning, and other land use plans and regulatory framework.

7. Electronic Database: Preparation of strategic engagement electronic database with metrics for encroachment management. This database would provide capability to track proposed development projects, compatible policy and regulation analysis and reports, support for operational and compatibility assessments, and the Encroachment Management Implementation (EMI) program.

8. Other Related Reports or Documentation Deliverables: Deliverables also include assistance with incidental services related to providing public notice for studies and publicizing and providing training on encroachment related studies. Additional requirements under this contract may include but are not limited to case studies, sketches, preliminary plans, cost estimates and descriptive text for future planning and work plans. Other special planning, engineering, and encroachment support deliverables, such as analytical assessments, geospatial analyses, information technology applications, thermal imaging, sensor imaging, traffic, noise, expansion, or alteration processes and procedures for adjusting boundaries of Restricted Special Use Airspace (SUA), Military Training Routes (MTR) and Military Operational Areas (MOA), Unmanned Aerial System (UAS) potential hazard to flight and socio-economic studies may be required.
