---

10. Will you share your email address and phone number for future contact? \_\_\_ YES \_\_\_ NO

Email: \_\_\_\_\_ Phone number(s): \_\_\_\_\_

# PFOS/PFOA Drinking Water Sampling Frequently Asked Questions

**How do I schedule the sampling?** Property owners with a private drinking water within the designated sampling area can call 1-833-737-7267 to schedule a sampling appointment. If you are on a community well from the Riverhead Water District, sampling is not necessary.

**How do I return the Homeowner Questionnaire?** The questionnaire can be returned to the Navy at the Open House Public Meeting on September 25, 2018, 4 pm to 7 pm at the *Residence Inn by Marriott Long Island East End, 2012 Old Country Road, Riverhead, New York 11901*. The questionnaire can also be completed and emailed to [NAVFAC\\_ML\\_PAO@navy.mil](mailto:NAVFAC_ML_PAO@navy.mil). Additionally, you may provide your response with your name, address, and telephone number by leaving voicemail at 1-833-737-7267.

**What are the dates and times for sampling?** The sampling will be conducted during the period from September 26 through October 5, 2018. Sampling appointments will be available daily between the hours of 8 am to 8 pm. Accommodations can be made for property owners who may not be available during the regularly scheduled sampling times or dates.

**Who will be taking the sample?** A team of two Navy-contracted professional environmental samplers will collect the sample. An adult resident (18 years of age or older) must be present during the sampling.

**How long will the sampling take?** The sampling will take approximately 1 hour. The Navy representatives will take a sample from the closest spigot to your well, preferably from a spigot that does not receive any in-home treatment. If there is no outside access, the sample will be collected from a faucet in your home. The team will measure and record basic information about the water, and they will review the homeowner questionnaire if completed.

**When will I receive the results?** The preliminary results of your drinking water sample are expected within a few weeks from when the sample was collected. The Navy will provide private notification of your preliminary results:

- If your drinking water is found to contain PFOS and/or PFOA above the EPA health advisory levels, the Navy will contact you to make arrangements to provide an alternate water supply (e.g., bottled water) for drinking and cooking in your home until a long-term solution can be implemented.
- If your drinking water is found to contain PFOS and /or PFOA below the EPA health advisory levels, you will be contacted (by phone) and informed of these results.
- Results for other twelve PFAS where no EPA Health Advisory Levels have been established will be provided in the laboratory report.

All preliminary result will be validated by an independent 3<sup>rd</sup> party. The validated sample results will be provided to homeowners via letter; additionally, this correspondence will inform homeowners if and when an additional open house public meeting will be held to review the sampling results and any potential future actions, if necessary.

**Will my results be private?** All results will be confidential to the greatest extent possible. You will receive your results and all references to results in official reports or in documents that will have a random number associated with your drinking water sample. Reports and documents will not contain your name or address. The Navy will not share any personal information that you provide, such as name, address, email, or phone number without your permission.
