Mess Hall - French Creek

CONTRACTOR: Enviro Agscience, Inc.
AWARD DATE: 02 June 2011
COMPLETION DATE: 06 February 2013
PERCENT COMPLETE: 35% (as of 20 May 12)
CONTRACT VALUE: \$14,805,061

PROJECT DESCRIPTION:

Design-Build contract to construct a single-story enlisted dining facility with steel framing on reinforced concrete floor with pile foundations, concrete masonry unit walls, brick veneer, and a standing seam metal roof. This facility shall feature a drive-up window for food distribution, an enclosed waiting area and will be constructed as a destructive weather shelter for extreme wind events. Also included are emergency generator, dock leveler, spectrally selective window glazing, and energy management control system. Exterior work includes site landscaping & lighting, paved parking and roadways, and widening of Sneads Ferry Road along with pedestrian trails along Sneads Ferry and Lyman Roads. The project will conform to anti-terrorism/force protection standards and follow LEED, low impact development and Federal Energy Acts compliance criteria for design, development, and construction.
