#### **PROJECT DESCRIPTION:**

Design-Bid-Build contracts to expand and upgrade the steam and electrical utility systems, roadway networks, and communication systems in the Hadnot Point and French Creek areas. Upgrades include new steam boilers at the Paradise Point steam plant and construction of underground steam lines, and service to the Cogdell's Creek area. Electrical system upgrades include expansion and relocation of overhead transmission and primary distribution lines. Road improvements consist of turn lanes and intersection modifications at various locations in Hadnot Point and the extension of Duncan, Birch and Gonzales Streets, to include construction of three bridges and signalized intersections. Communications expansion includes construction of telephone and communication lines.
