

REGULATED GARBAGE FACT SHEET – HAMPTON ROADS, VA

WHAT IS REGULATED GARBAGE? Regulated Garbage (Foreign Food Waste) includes, but is not limited to, food scraps, table refuse, food wrappers or packaging materials and other waste material from stores, food preparation areas, crews' or passengers' quarters and from aircraft or ships generated during international travel. Regulated Garbage also means meals and other foods that were available for consumption by passengers or crew on an aircraft but were not consumed. Plastic disks or plastic waste contaminated with foreign source food and garbage will be managed as Regulated Garbage.

WHO GOVERNS REGULATED GARBAGE? The United States Department of Agriculture-Animal and Plant Health Inspection Service (APHIS), and the United States Department of Homeland Security- Customs and Border Protection (CBP) regulate Foreign Food Waste compliance through a Compliance Agreement for the Hampton Roads Navy installations. The Agreement is renewed annually.

WHO GENERATES REGULATED GARBAGE? Aircraft or vessels returning from international travel to Naval Station Norfolk, Naval Air Station Oceana, Joint Expeditionary Base Little Creek, Naval Weapons Station Yorktown, Cheatham Annex or the Naval Support Activity Norfolk Naval Shipyard may generate Foreign Garbage. International travel includes movements from Hawaii and U.S. territories and possessions to the continental United States.

HOW IS REGULATED GARBAGE MANAGED?

GENERAL

- All Regulated Garbage is to be bagged, secured and labeled in 3 mil plastic bags with the words "Regulated Garbage" and placed in the Regulated Garbage container.
- Only Regulated Garbage and any item comingled with Regulated Garbage are to be placed into the container.
- All offloads of Regulated Garbage must be logged onto the Foreign Garbage Tracking Log. This form must be faxed or emailed to NAVFAC Integrated Solid Waste Management (ISWM).
- **ALL** Regulated Garbage must be removed from the installation within 72 hours of placement in the Regulated Garbage Container. NAVFAC ISWM will coordinate removal of the container by Stericycle, Inc.
- The seal and door on the Regulated Garbage Container must remain closed unless adding waste.
- For spills, contact the Emergency Communications Command at the respective installation.

VESSELS:

- Port Operations, on behalf of the ship, contacts NAVFAC ISWM to order a container prior to ship's arrival. Port Operations will place the container near the ship at the pier.
- The Ship's designee will accompany the CBP inspector during the on-board inspections prior to off-loading Regulated Garbage. The CBP Inspector will designate items as Regulated Garbage for disposal.
- Ship's crew collects all Regulated Garbage in 3 mil plastic bags, labels the bags and places them in the Regulated Garbage container located near the ship at the pier.
- **ALL** food wastes generated within the first 24 hours after arrival must be placed in the Regulated Garbage container.
- Host ships are responsible for ensuring foreign vessels comply with installation Regulated Garbage requirements.
- **ALL** food wastes generated by foreign vessels must be managed as Regulated Garbage.

AIRCRAFT (Naval Station Norfolk and Naval Air Station Oceana)

- Commercial: Jet Services collects Regulated Garbage in 3 mil plastic bags and places in the Regulated Garbage container at the respective locations, LP-210 (Naval Station Norfolk) or Bldg. 3050-North Pad (NAS Oceana).
- Military: Military Crew collects Regulated Garbage in 3 mil plastic bags and places in the Regulated Garbage container at the respective locations.
