

GENERAL NATURAL RESOURCES MANAGEMENT AND BIOLOGICAL SCIENCES SERIES(0401 SERIES)

Responsibilities

- Manages environmental programs at the Command, including day to day environmental oversight, planning, conservation, and restoration, in a manner that ensures the Command is conforming to ISO 14001 as a part of the Navy's Environmental Management System (EMS).
- Manages hazardous waste handling, spill response, EV sampling and testing, drinking water, and waste water, in accordance with all applicable requirements and laws.
- Ensures compliance with environmental regulations, standards, and procedures, in accordance with environmental policies and regulations.
- Conducts routine inspections of tenant commands to investigate compliance with applicable standards for water and wastewater, air, above-ground and underground storage tanks, spill prevention, clean-up actions, waste management, and natural/cultural resources.
- Works with supported commands to resolve issues related to compliance or differing regulatory interpretations.

Qualifications

- Administering or assisting in the administration of Environmental Management Programs;
- Providing technical guidance to personnel regarding Environmental Management issues;
- Implementing environmental policy and ensuring compliance with environmental requirements;
- Providing input for recommendations on environmental issues, environmental administrative matters, environmental program budgets and various region-wide responsibilities;
- Conducting hazardous waste handling, storage and shipment, spill response, environmental sampling/testing, and other environmental support services.

Basic Requirements:

Degree: biological sciences, agriculture, natural resource management, chemistry, or related disciplines appropriate to the position.

OR

Combination of education and experience: Courses equivalent to a major, as shown in A above, plus appropriate experience or additional education.
