

# PFOS/PFOA Drinking Water Sampling Homeowner Questionnaire

**Name and Address:**

**Do you rent or own your property?**

**Is there more than one home or apartment on this property? If yes, how many homes? How many apartments?**

**Do you share your well water with other residents outside your property?**

**Do you have well construction information on your drinking water well** (e.g. when it was installed, well depth, well location, and screen length)? If yes, please provide details (include construction log if available):

**Have you upgraded your drinking water system in any way? If so please specify (e.g. storage tanks, water treatment).**

**Have you ever had your drinking water tested? If so, will you share the results?**

**Do you have more than one well** (e.g. additional well for irrigation or livestock)?

**Will you share your email address and phone number for future contact?:**

Phone:

**Please return this questionnaire to the Navy: mail it to Public Affairs, Naval Facilities Engineering Command Northwest, 1101 Tautog Circle, Room 203, Silverdale WA, 98315, or email to the Navy's Public Affairs Office at [PAO\\_Feedback@navy.mil](mailto:PAO_Feedback@navy.mil).**

# PFOS/PFOA Drinking Water Sampling Frequently Asked Questions

***How do I schedule the sampling?*** Property owners within the designated sampling area can call **360-396-1030** to schedule a sampling appointment.

***How do I return the Homeowner Questionnaire?*** The questionnaire can be returned to the Navy at any of the Open House Public Meetings, mailed to Public Affairs, Naval Facilities Engineering Command Northwest, 1101 Tautog Circle, Room 203, Silverdale WA, 98315, or emailed to the Navy's Public Affairs Office at [PAO\\_Feedback@navy.mil](mailto:PAO_Feedback@navy.mil).

***What are the dates and times for sampling?*** The sampling will be conducted from January 16 – January 28, 2016. Sampling appointments will be available between the hours of 9 am to 7 pm, Monday – Friday, and 9 am to 1 pm on Saturday. There will be no sampling appointments on January 22, 2017. Accommodations can be made for property owners who may not be available during the regularly scheduled sampling times.

***Who will be taking the sample?*** A team of two Navy-contracted professional environmental samplers will collect the sample. An adult resident (18 years of age or older) must be present during the sampling.

***How long will the sampling take?*** The sampling will take approximately 30 minutes. The Navy representatives will take a sample from the closest spigot to your well, preferably from a spigot that does not receive any in-home treatment. If there is no outside access, the sample will be collected from a faucet in your home. The team will measure and record basic information about the water (e.g., pH and temperature), and will review the homeowner questionnaire.

***When will I receive the results?*** The results are expected late February 2017, depending on when the sample was obtained. The Navy will provide private notification of your results. If your drinking water is found to contain PFOS and/or PFOA above the EPA health advisory levels, the Navy will contact you in person to arrange for alternate water (e.g., bottled water) for drinking and cooking in your home until a long-term solution can be implemented. If your drinking water is found to contain PFOS and /or PFOA below the EPA health advisory levels, you will be contacted and informed of these results.

***Will my results be private?*** All results will be confidential to the greatest extent possible. You will receive your results and all references to results in official reports or in documents that will have a random number associated with your drinking water sample. Reports and documents will not contain your name or address. The Navy will not share any personal information that you provide, such as name, address, email, or phone number.
