  - Voluntary
- **Daily passes**
  - Installation specific
  - Cumbersome

### Slide 3

---

c1 A negative to this is we lose the ability to ensure our documents are actually shredded.

A private company was actually fined a year or two ago for failing to shred DoD documents according to the terms of the contract. I'm concerned about this possibility.

When the company comes to shred, we have to escort them through the building to collect the documents (because they're a contractor, they cannot access the building without escort).

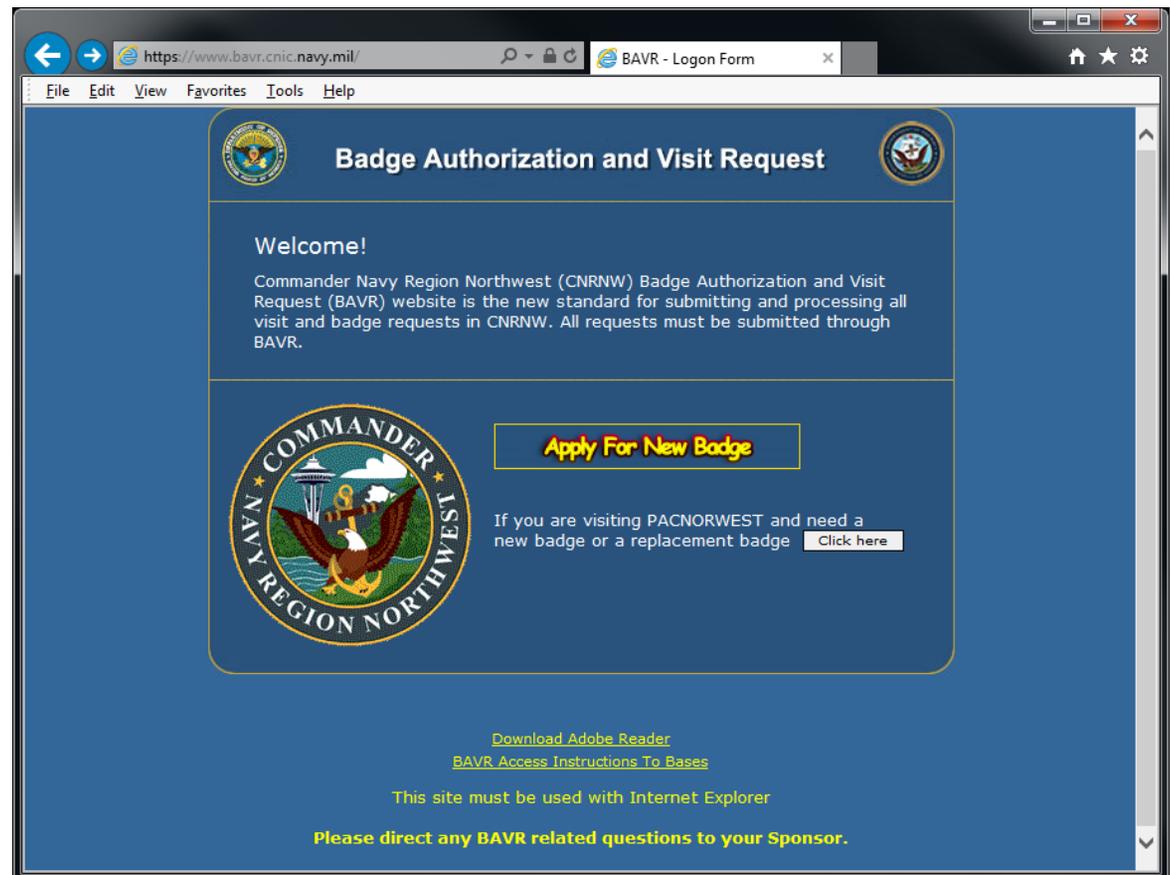

chuck.vancleave, 12/2/2014

# Badge Authorization and Visit Requests (BAVR)

<https://www.bavr.cnrc.navy.mil/>
