

N62473-17-C-0808 <b>COASTAL CAMPUS UTILITIES INFRASTRUCTURE, SILVERSTRAND TRAINING          COMPLEX-SOUTH, NAVAL BASE CORONADO, CORONADO, CALIFORNIA</b>	
LOCATION Work will be performed at Naval Base Coronado, Coronado, California	
<b>SCOPE OF WORK:</b> The work to be performed provides for the construction of primary facilities for electrical, gas, water, sanitary sewer, storm water, fire protection, communication, and data systems. Major scope elements include: sewer lift stations, primary and secondary distribution, data systems, fiber optics, lighting, switchgear, fire storage tanks and all associated pumps. Option items include secondary fiber path, concrete sidewalks, a central sidewalk, and mixed path sidewalks and infrastructure for recycled water distribution system. The option, if exercised, provides for a helicopter landing zone.	
Contract Amount: 48,152,000 NAICS: 237990	Award Date: March 30, 2017 Contract Expires: April 23, 2018
CAGE Code: 68RN8	RQ-DPR JV 3194 Lionshead Ave Carlsbad, CA 92010-4701 POC: Doug Youngdale (760) 477-8616 Phone: (760) 477-8616

N62473-14-D-0049  
 FACILITY PLANNING SERVICES, SMALL BUSINESS SET-ASIDE  
 NAVFAC SW

**LOCATION:** The work for this contract shall occur at various Navy and Marine Corps facilities and other military installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico and Utah. Projects could also be located anywhere in the United States, including Alaska and Hawaii. The preponderance of work is in Southern California.

**SCOPE OF WORK:**  
 Required A-E services are for, but not limited to: SUSTAINABILITY MASTER PLANNING: Local and regional planning to include sustainability principles, sustainable urbanism, healthy community planning, energy and renewable master planning, form-based planning, landscape architecture, leading group facilitation/charettes and electronic/web-based master planning and scenario planning; PROJECT PLANNING DOCUMENTS: Military Construction (MILCON) Project Planning Documentation (DD Form 1391); Demolition / Footprint Reduction and Special Projects planning documentation (DD Form 1391 and Electronic Project Generator (EPG); Preliminary and Parametric Cost Estimates; Site Approvals (Ordnance etc.); Economic Analyses (EAs) using the latest version of the Government’s ECONPACK software; Asset Evaluations (AE) and or Basic Facilities Requirements (BFR) documentation; Facilities Planning Documents (FPD), using the government’s web-based iNFADS program; GEO-SPATIAL INFORMATION & SERVICE: The preparation of Geo-Spatial Data services includes, preparation of maps, datasets, data models, geo-processing models and associated metadata needed to assess, evaluate, manipulate, convert, correct, project, load, link, scan and provide quality control for maps, charts, hard copy, legacy database information utilizing Microsoft Office, Adobe Acrobat, Oracle, AutoCAD, ESRI ARCVIEW, ESRI ARCInfo, and ESRI ArcGIS Server. Global Position System (GPS) services include field location of map features and incorporation of location data into datasets associated with map layers; the collection of data using GPS equipment compatible with the NAVFAC SW Geo-Readiness Center (GRC). OTHER SERVICES include: Renewable energy research and or studies; Architectural studies; Civil engineering studies; Land Surveying and topographic mapping; and Hazardous materials test and abatement studies.

Contract Amount: \$15,00,000 Task Order Range: \$10K \$1,500,000 NAICS: 541320	Award Date: June 24, 2014 Base + 4 Option Years Contract Expires: June 23, 2019

**FACILITY PLANNING SERVICES ARCHITECT-ENGINEER (A-E) IDIQ CONTRACT**

**LOCATION:** various Navy and Marine Corps facilities and other government installations located in the NAVFAC Southwest Area of Responsibility (AOR): California, Arizona, Nevada, Colorado, New Mexico and Utah. Projects could also be located at other Navy and Marine Corps facilities and government installations in the United States, including Alaska and Hawaii

**1. PRIMARY A-E services**

**PROJECT PLANNING DOCUMENTS:** Military Construction (MILCON) and Special Project planning documentation (DD Form 1391) using Electronic Project Generator (EPG); demolition / footprint reduction; preliminary and parametric cost estimates; life cycle analysis; economic analyses (using the latest version of the Government's ECONPACK software); site approvals (ordnance, explosive safety, etc.); Anti-Terrorism/Force Protection (AT/FP); Asset Evaluations (AE); Basic Facilities Requirements (BFR) documentation; Facilities Planning Documents (FPD) using the government's web-based iNFADS program.

**2. SECONDARY A-E services**

**A. SUSTAINABILITY MASTER PLANNING:** Local and regional planning to include sustainable urbanism, healthy community planning, campus planning, form-based planning, energy and renewable master planning, transportation planning, landscape architecture, water conservation planning, and electronic/web-based master planning and other planning documents which incorporate sustainability principles such as those outlined in UFC 2-100-01 Installation Master Planning.

**B. GEOSPATIAL INFORMATION and SERVICE:** The preparation of Geo-Spatial Data services includes: a) spatial and non-spatial data acquisition; loading data into enterprise GIS database systems in accordance with current spatial data standards (SDSFIE 3x); b) preparation of maps, datasets, data models, geo-processing models, automation scripts utilizing Microsoft Office, Adobe Acrobat, Oracle, AutoCAD, ESRI ArcGIS Product Suite; and c) GPS services which include the collection of global positioning system (GPS) data using GPS equipment compatible with the NAVFAC SW Geo-Readiness Center (GRC).

**3. SUPPORT A-E services: OTHER SUPPORT SERVICES include:** renewable energy research and or studies; architectural studies; civil engineering studies; land surveying and topographic mapping; and hazardous materials test and abatement studies.

N62473-17-C-2005 <b>FUEL STORAGE AND DISTRIBUTION FACILITIES REPLACEMENT</b>	
<b>LOCATION:</b> The work will occur predominantly at Naval Base in Ventura County, California.	
The work to be performed provides for the construction and replacement of a jet-fuel storage complex consisting of fuel piping to 20 existing hot fuel outlets, fuel transfer piping, three fuel storage tanks, pump-house, and fuel operations support facility. It modifies existing fuel truck loading position and adds two additional positions, and modifies existing truck unloading stations. It replaces existing military service station and provides a 25 gallon surge tank. Work also includes the demolition or decommissioning of existing fuel underground storage tanks and associated support facilities. Project includes remediation of fuel contaminated soil funded by other appropriations. The planned modification, if exercised, provides furniture, fixtures and equipment.

PLANNED

<p>N62473-17-R-4618  <b>INTERIOR DESIGN SERVICES,          SMALL BUSINESS SET-ASIDE</b></p>	
<p><b>LOCATION:</b> Projects under this contract will occur at various military installations located in the NAVFAC Southwest (SW) Area of Responsibility (AOR) (California, Arizona, Nevada, Colorado, New Mexico, and Utah) and the NAVFAC Pacific AOR (Hawaii, Japan, Guam), but may be also available to the NAVFAC (AOR) as approved by the NAVFAC SW Chief of Contracting Office (CCO).</p>	
<p><b>SCOPE OF WORK:</b> INTERIOR DESIGN related services. The work will primarily include preparing Comprehensive Interior Design (CID) for various types of facilities.          CID includes Structural Interior Design (SID) and Furniture, Fixtures and Equipment (FF and E) Interior Design. SID includes selection and coordination of interior finish materials that are integral to or attached to the building structure. FF and E interior design includes design, selection, specification, color coordination, and procurement documentation of the required items. SID packages will typically include furniture floor plans, finish schedules, and any supporting interior elevations, details, or plans necessary to communicate the building finish design and build out. FF and E packages will typically include placement plans, ordering and finish information on all freestanding furnishings and accessories, cost estimates, and best value determinations.          Additional services may include the following: preparation of the interior design portion of a design-build Request for Proposal (RFP) package, including developing the FF and E requirements and budget for the project; verification of equipment and finishes during building construction; consultation during FF and E procurement, delivery, and installation; supervision of furniture assembly and placement; developing standards for FF and E for a program or group of projects; and other related consultation.          The types of buildings/facilities may include, but are not limited to, administration buildings, academic facilities, maintenance facilities, hangars, industrial/warehouse, bachelor enlisted/officer quarters, recreational facilities, dining facilities, medical facilities, laboratories, and consolidated clubs.</p>
