

## Navy Environmental Restoration Program Project Update Central RAB, JBPHH, Wahiawa Annex

**February 2020**

Site Number	Site Description	Project Status	Upcoming Deliverables/Actions (Anticipated Date)
<b>JOINT BASE PEARL HARBOR-HICKAM (JBPHH), WAHIAWA ANNEX - NCTAMS</b>			
Site 3 – East Gulch Disposal Area	Site used from 1940s to 1973 to dispose of municipal refuse, construction debris and various metal debris (e.g. washing machine, vehicle parts, and scrap metal).	Completed Draft Record of Decision September 2019	Final Record of Decision (Summer 2020)
Site 18 – Transformer Sites	Former electrical transformer sites.	Site investigations are complete. At the JBPHH Wahiawa Annex no further action is recommended for six sites; soil removal or Land Use Controls are recommended for three sites.	Proposed Plan (Summer 2020)
Site 20 – Five Transformer Sites	Former electrical transformer sites.	Completed Record of Decision in Mar 2011. Sites have land use controls so CERCLA Five-year reviews are required. Installation 5-year review completed in February 2020 to ensure CERCLA remedies remain protective of human health and the environment.	Installation 5-year review (due Feb 2025)
Site 20 – Transformers 121 & 242	Former electrical transformers.	Site investigations are complete, and sites are recommended for No Further Action.	Proposed Plan (Summer 2020)
