

This e-mail is supported by NAVFAC's Alternative Restoration Technology Team (ARTT) to provide links to Technology Transfer (T2) tools and the latest information on policies, guidance, and training related to innovative technologies. The T2 topics highlighted in this issue will help support the ARTT's chartered goals of promoting the use of innovative technologies, removing barriers to implementing new technologies, and reducing cleanup costs, while remaining protective of the environment and human health.

Issue 116

April 2, 2014

NAVFAC Remediation Innovative Technology Seminar (RITS)

RITS offers presentations to provide Navy Remedial Project Managers, contractors, and others with information on new and innovative technologies, methodologies, and guidance in support of the Navy's Environmental Restoration (ER) Program. RITS is sponsored in coordination with NAVFAC Facilities Engineering Commands (FECs), the Base Realignment and Closure (BRAC) Program Management Office, and the Naval Facilities Engineering Command (NAVFAC) Engineering and Expeditionary Warfare Center (EXWC). Regulators and other stakeholders are welcome to attend, as well as contractors, who must have a current Navy ER contract. The 2014 seminar topics include:

- Rad 101: Everything You Have Been Curie-ous About...
- State of the Practice for In Situ Thermal Remediation Technologies
- Using Classification Capable Sensors on Munitions Response Projects
- High Resolution Site Characterization (HRSC)
- A Smarter Feasibility Study for a More Efficient Cleanup
- Distribution of In Situ Remediation Amendments

Dates and locations for the seminars are as follows:

28-29 April	NAVFAC Washington, Washington, DC
30 April - 1 May	NAVFAC Southeast, Jacksonville, FL
12-13 May	NAVFAC Southwest, San Diego, CA
14-15 May	NAVFAC Northwest, Silverdale, WA
28-29 May	NAVFAC Pacific/Hawaii, Honolulu, HI
3-4 Jun	NAVFAC Atlantic/Mid-Atlantic, Norfolk, VA
