This e-mail supports the NAVFAC Environmental Restoration Program with the latest information on policy, guidance, and training related to innovative technologies. Links are provided to Technology Transfer (T2) resources and tools. Our goal is to promote use of innovative technologies, remove barriers to implementing new technologies, and reduce cleanup costs, while remaining protective of the environment and human health.

**The Remediation Innovative Technology Seminar (RITS) Registration is NOW OPEN!**

The RITS is the Department of the Navy (DON) showcase for the latest Environmental Restoration (ER) technologies, methodologies, and guidance. The seminar is geared toward Remedial Project Managers (RPMs), but other Department of Defense (DoD) personnel, federal/state/local regulators, and contractors with an active DON ER contract are welcome to attend. The RITS will be conducted at several NAVFAC locations starting in May to June 2018. The 2018 RITS topics include:

- Applying Environmental Sequence Stratigraphy to Unlock the Clues beneath Your Site and Improve the Conceptual Site Model
- Plume Persistence: Evaluating the Role of Matrix Diffusion
- PFAS Remediation: Technologies, Guidance, and Application
- Vapor Intrusion Update: Tools, Technologies, and Trends
- Sustainable Long-Term Management (SLM) Strategies at Landfill Sites
- Assessing and Managing Sediment Sites with Fish Consumption Risk

For more information on dates for your location and to register, please visit the NAVFAC ERB Web site: [http://www.navfac.navy.mil/navfac_worldwide/specialty_centers/exwc/products_and_services/ev/erb/rits.html](http://www.navfac.navy.mil/navfac_worldwide/specialty_centers/exwc/products_and_services/ev/erb/rits.html)

**NAVFAC Open Environmental Restoration Resource (OER2) Webinar: Munitions Response Program Update and Lessons Learned**

This topic will present updates in the form of case studies and lessons learned from completed and ongoing NAVFAC Munitions Response Program (MRP) projects. The session will include an update on the Defense Advanced Geophysical Classification Accreditation Program (DAGCAP) and discussion of using the vertical conceptual site model (VCSM) on munitions projects.

**Topic:** Munitions Response Program Update and Lessons Learned  
**Presenters:** Bryan Harre (NAVFAC EXWC) and Stacin Martin (NAVFAC LANT)  
**Date:** April 25, 2018  
**Time:** 11:00 AM PT | 2:00 PM ET
