DELIVERED BY:

Christopher T. Penny

RECEIVED BY:

Glorisette Carli

The purpose of this memorandum is to provide documentation that the report titled "Final-Results of the Hydrogeologic Investigation for Vieques Island, Puerto Rico" has been placed in two repositories on the island of Vieques. A copy of of the document is accessible to the public at the local Vieques library and museum. A formal public notice indicating that this document will be available for public review is forthcoming in the near future.

Sincerely,

Christopher T. Penny
