Ms. Helen Shannon  
Regional Docket Coordinator  
ERRD-Federal Facilities Section  
U.S. Environmental Protection Agency  
Region II  
26 Federal Plaza, Room 2930  
New York, NY 10278

Dear Ms. Shannon:

This is in reference to the U.S. Environmental Protection Agency, Region II, letter of October 21, 1991, concerning a Site Inspection (SI) for the Naval Ammunition Facility, Vieques, Puerto Rico.

As requested, enclosed please find a copy of the ESE Report Confirmation Study dated April 1988, provided for your use, as discussed in our letter of August 26, 1991, NAF Vieques was included with this report as part of the NAVSTA Roosevelt Roads PA/SI. This action was completed prior to listing the facility in the 1988 compliance docket. The Hazard Ranking System score for NAF Vieques was calculated separately and combined with the NAVSTA Roosevelt Roads' HRS score. It was completed before the requirements for HRS scoring were revised on December 14, 1990.

The SI report forms request several items of information which will require considerable research to complete such as subsurface geology, the existence of well head protection, depth of the lowest point of waste disposal/storage, etc. Therefore, we expect the completed PA score sheets and the SI report forms to be sent to you on or before April 21, 1992.

If you have any questions or require additional information, please contact Ms. Maritza Montesinos-Gross, Remedial Project Manager, at (804) 445-9897.

Sincerely,

R.E. YBAÑEZ  
Commander, CEC, U.S. Navy  
Public Works Officer  
By direction of the  
Commanding Officer
