Virginia Beach, Virginia 23455

Subject: Draft reports for the Vieques Island, PR Project.

Dear Mr. Tomic:

Enclosed with this letter are four copies of the draft final report of the Vieques Island Project (Project No. 139322.PP.WP). Due to delays in receiving two 1983 photographs, figures 25 and 26 are not included in the draft report. Photographs for these figures will be included in the final report. Since all significant activity at the sewage lagoons (SWMU 10) and the rock quarry (AOC F) had ceased by 1981 (confirmed by information derived from the 1984 photographs), no significant results or changes are expected from the 1983 photographs at these two locations.

If you have any questions, please contact me at (702) 897-3390.

Very truly yours,

David R. Williams
