DEPARTMENT OF THE NAVY

U.S. NAVAL STATION
FPO MIAMI 34051-30015090
Ser N02C-B13/5998

12 0 OCT 1994

Honorable Manuela Santiago
Mayoress of Vieques
Municipality of Vieques
Vieques, PR 00765

Dear Mayoress Santiago:

Federal environmental laws require that facilities conducting remedial actions of areas potentially contaminated as a result of past, formerly accepted waste disposal practices, keep the public informed about those actions.

In June 1992, we interviewed members of the community. These interviews were a means for us to measure how much the community knew about the Navy's Installation Restoration (IR) Program. As a result, a Community Relations Plan (CRP) was written. The CRP recommended that information repositories be established at the towns of Ceiba and Vieques, and at our Station.

The enclosed Installation Restoration Program Information Repository contains all of the documents generated by the Navy related to the remediation of the sites listed in the CRP.

As per your telephone conversation with Mrs. Madeline Rivera, of my staff on September 23, 1994, we requested that this information be placed in a location easily available to the public. We will update the information as new documents are generated.

If you have any questions, please call Mrs. Madeline Rivera, Installation Restoration Program Manager, at 865-4429.

Sincerely,

Handwritten signature of Jay R. Huston in cursive script.

J. R. HUSTON
Lieutenant Commander, CEC, U.S. Navy
Assistant Public Works Officer
By direction of the
Commanding Officer
