Subject: Community Relations Work Plan for Atlantic Fleet Warfare Training Facility

Dear Mr. Soderberg:

On behalf of Christopher Penny (Navy Remedial Project Manager), and at the request of Tim Gordon (RCRA Programs Branch, EPA Region 2), I am sending you one copy of the *Final Community Relations Work Plan for Atlantic Fleet Warfare Training Facility and Eastern Manuever Area, Vieques Island, Puerto Rico* (March 2002) (EPPA I.D. #PRD980536221). This plan has been reviewed by Region 2 and finalized in accordance with comments received.

The Community Fact Sheet (Appendix C in the Community Relations Work Plan) has been revised since March 2002, to update the public points of contact (POCs). Our understanding from Mr. Gordon is that Carlos Ramos has been designated as EPA's interim POC for Vieques community relations [replacing Mary Helen Cervantes] and that eventually a new POC will be designated. Also, we need to confirm that Eugene Scott will be the PREQB's POC for AFTWTF. The POCs could change again before the Fact Sheet is mailed out to the public.

Mr. Gordon also requested that we send you the RCRA Facility Investigation Site-Specific and Master Work Plans, the Groundwater Baseline Work Plan, and the Soil and Background Investigation Work Plans (all dated September 2001). According to our records, we sent those documents to you on March 29, 2002. We have been attempting to contact you, to verify that they actually reached you. Because we have not heard back from you, our Tampa office is sending you a second set today. If you do not receive them, please notify us as soon as possible.

If you have any questions about these documents, please contact Christopher Penny at 757-322-4815. Thank you.

Sincerely,

CH2M HILL

Virginia Farris  
Community Involvement Planner
