RE: FINAL REPORT REGARDING OFFSITE SOIL SAMPLING OF RESIDENTIAL
NEIGHBORHOOD EAST OF THE NWIRP BETHPAGE, NY

Dear Mr. Sabino:

Enclosed is the Navy's Final Report regarding the results of the offsite residential sampling effort which was conducted during November 1994. This Final Report has incorporated comments from the New York State Department of Health as well as the New York State DEC. Both agencies have generally accepted the conclusions presented within the report.

Additional copies have also been sent to the members of the NWIRP Bethpage's Technical Review Committee, as well as to the Bethpage Public Library for inclusion into the Navy's information repository.

Based upon the results of the report, a joint Navy and New York Department of Health Fact Sheet will be prepared and distributed to the community residents whose properties were sampled. Please let me know if you would like a draft version of this fact sheet for review prior to distribution.

If you have any questions regarding the report, please give me a call at (610) 595-0567, extension 163.

Sincerely,

A handwritten signature in cursive script that reads "James L. Colter".

JAMES L. COLTER
Remedial Project Manager
by Direction of the Commanding Officer
