RE: Northrop Grumman Site and Naval
Weapons Industrial Research Plant (NWIRP)
Site-Bethpage, Nassau County, Sites No. 1-30-
003A&B.

Dear Ms. Fly:

The Department of the Navy (Navy) has submitted the report entitled "Summary Report for Pre-Design Field Investigation Offsite Location GM-75, August 2009, NWIRP Bethpage, NY." This report ultimately followed the installation and sampling of monitoring well GM 75. Monitoring well GM 75 was installed as part of the vertical profile borings, outpost and monitoring well installation conducted by the Navy in 2002 and 2003. This report is interim and a follow up work plan will be submitted based on the analytical results presented in this report.

The New York State Department of Environmental Conservation (NYSDEC) awaits the supplemental GM 75 work plan and has no comments on this remedial design summary report.

If you have any questions, please contact me at your earliest convenience at (518)402-9620.

Sincerely,

Steven M. Scharf, P.E.
Project Engineer
Division of Environmental Remediation
Bureau of Remedial Action A
