Subject: RE:VPB Work Plans 140-144, 145-147, 148-153 & BPOW 4-1 & 4-2

Lora,

The NYSDEC in conjunction with the NYSDOH and with input from the USEPA, have reviewed the following work plans submitted by the Department of the Navy for offsite Vertical Profile Boring (VPB) offsite Groundwater characterization work and Out Post Restoration:

1. Abbreviated Work Plan- November 2013 Vertical Profile Borings (VPB-140, VPB-142, VPB-143 and VPB-144), Pre-Design Field Investigation, OU2 Groundwater, NWIRP Bethpage, NY

2. Abbreviated Work Plan- December 2013 Vertical Profile Borings (VPB-145, VPB-146, VPB-147) Pre-Design Field Investigation, OU2 Groundwater, NWIRP Bethpage, NY
3. Abbreviated Work Plan- December 2013 Vertical Profile Borings (VPB-148, VPB-149, VPB-150, VPB-151, VPB-152, and VPB-153) Pre-Design Field Investigation, OU2 Groundwater, NWIRP Bethpage, NY
4. Abbreviated Work Plan- December 2013 Outpost Monitoring Well rehabilitation (BPOW 4-1 and BPOW 4-2) Pre-Design Field Investigation, OU2 Groundwater, NWIRP Bethpage, NY

These document work plans have been reviewed, and any last outstanding comments were addressed on the February 6, 2014 conference call. The results of these work plans will be compiled into report(s) that will contain data evaluation section(s). Additional VPBs, and/or monitoring wells may be required as part of the overall program.

These document work plans have been reviewed, and any last outstanding comments were addressed on the February 6, 2014 conference call. The results of these work plans will be compiled into report(s) that will contain data evaluation section(s). Additional VPBs, and/or monitoring wells may be required as part of the overall program.

The Dept of the Navy has agreed to submit monthly updates to the NYSDEC specific to the progress of the Current VPB installation program. If you have any questions, please contact me direct.
