Reference: CLEAN Contract No. N62470-08-D-1001
Contract Task Order WE62

Subject: Feasibility Study Addendum – Site 1 Former Drum Marshalling Area
Naval Weapons Industrial Reserve Plant (NWIRP) Bethpage, New York

Dear Mr. Scharf:

On behalf of the Navy, please find enclosed one paper copy and 2 CDs of the subject report. This report presents the findings of a Feasibility Study Addendum prepared to develop and evaluate options for addressing soil, groundwater, and soil vapor impacted by Site 1 chemicals of concern. To maintain our current schedule of issuing the final document in early August 2016, please provide comments by July 22, 2016. We anticipate having a meeting in the near future to discuss the proposed remedy for the site and plan on finalizing the Proposed Plan in October 2016 and completing the public comment period in December 2016.

If you have any questions please contact Ms. Lora Fly, NAVFAC Mid-LANT, at (757) 341-2012.

Sincerely

A handwritten signature in black ink, appearing to read 'D. Brayack', written over a light blue horizontal line.

David D. Brayack, P.E.
Project Manager
