CONSULTING ENGINEERS

4607-00

January 28, 1985

Mr. Robert Kowalczyk
Commanding Officer
Northern Division
Naval Facilities Engineering Command
Philadelphia Naval Base
Building 77L
Philadelphia, PA 19112

Dear Mr. Kowalczyk:

Subject: Transmittal of Draft Report
Pollution Abatement Confirmation Study
Step IA - Verification
Contract: N62472-84-C-1108
Brunswick Naval Air Station

In accordance with our contract, we are pleased to submit three copies of the subject report for your review and comment. We understand that Government comments and recommendations regarding the draft will be available to us within twenty one calendar days or on about February 19, 1985.

As we discussed last week, the three copies of the draft report for BNAS were hand delivered to Mr. Brent Bridges on January 28. Delivery of the reports was accompanied by a short debriefing of our findings.

As you will note, during your review of the draft report, we have not prepared cost estimates for the additional work recommended at the BNAS. It is our intention to prepare a brief addendum to the draft report outlining a suggested scope of work and related order of magnitude cost estimate for each of the sites requiring additional work.

Mr. Robert Kowalczyk
