Subject: BACSE Comments on October 4, 2006 Conference Call Notes

Dear Mr. Monaco:

The following comments regarding the October 4, 2006 Conference Call Notes (which were prepared by Lonnie Monaco and received by email on October 5, 2006) are submitted on behalf of the Brunswick Area Citizens for a Safe Environment (BACSE).

BACSE suggests that the last names and affiliations of the four non-participants be added to the first paragraph (Claudia Sait, MEDEP; Christine Williams, EPA; Lisa Joy, NASB; and Dawn Kincaid, Navy BRAC PMO).

The seventh bullet under the Oak Environmental heading addresses activities in the vicinity of Neptune Drive. One item that must be added to the notes is that, with regard to the road itself, the Navy is considering leaving ash in place and keeping the Institutional Control, rather than excavating the road and around the utilities immediately adjacent to the road. Lonnie stated that this needs to be discussed.

BACSE suggests, as it has in comments on previous meeting and conference call minutes and notes, that acronyms (such as CDD) be spelled out, either within the text or in an attached list.

There are three items in our notes that are not listed in the contract modifications under the ECC heading. One is the Site Management Plan, the second is the Community Relations Plan, and the third is the Background Study. Our notes also indicate that ECC will be conducting Quality Control audits and preparing the closeout report for Site 9.

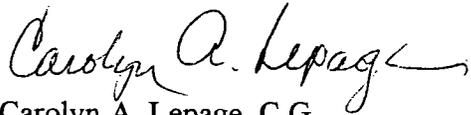

To clarify, only MEDEP's comments on the draft Site 7 Work Plan have been submitted to date.

As an action item regarding monitoring event reports, Catherine will send out an updated spreadsheet showing where things stand (in regulator review, comments received, etc.) for each of the reports currently in process.

Please do not hesitate to call if you have any questions.

Sincerely,

Carolyn A. Lepage, C.G.
President
