Ms. Claudia Sait  
Remedial Project Manager  
Maine Department of Environmental Protection (MEDEP)  
Bureau of Remediation and Waste Management  
17 State House Station  
Augusta, ME 04333-0017

Dear Mr. Daly and Ms. Sait:

Enclosed you will find the Final Groundwater Monitoring Report April 2008 and October 2008 Sampling Events, Old Navy Fuel Farm, Naval Air Station (NAS) Brunswick, Maine. This report is provided for your use/reference.

Navy agrees with Maine Department of Environmental Protection (MEDEP) recommendation that Navy suspend its groundwater monitoring of this site until MEDEP has transitioned to its new analytical methodology using Volatile Petroleum Hydrocarbons (VPH) and Extractable Petroleum Hydrocarbons (EPH). Navy also agrees that at that time, the Navy and MEDEP may revise the groundwater monitoring program, as stated in the (MEDEP) letter to the Navy dated September 2, 2009.

If you have any questions or comments, please contact the Navy's Remedial Project Manager, Todd Bober at (215) 897-4911.

Sincerely,

Paul F. Burgio  
BRAC Environmental Coordinator  
By direction of BRAC PMO

Enclosed you will find the final Environmental Monitoring Report (EMR) for the BRAC NE Station (NAVFAC) located at the site. The EMR is provided for your information.

For your information, the Department of Defense (DOD) is currently conducting an Environmental Impact Statement (EIS) for the BRAC NE Station. The EIS is a study of the potential environmental effects of the proposed project. The EIS is being conducted in accordance with the National Environmental Policy Act (NEPA). The EIS is being conducted by the Environmental Impact Statement (EIS) team.

If you have any questions or comments regarding the EMR, please contact the BRAC NE Station at (301) 316-1111.
