RE: LANDFILL SITES 1 AND 3
CONTRACT NO. N62470-93-D-3032/DO 0040
OHM PROJECT NO. 16285

Dear Mr. Gallant:

Attached for your use are three copies of the updated schedule for the subject project. The schedule has been updated to reflect the proposed schedule of activities discussed in the QA/QC meeting of December 14, 1995. OHM Remediation Services Corp. (OHM), a wholly owned subsidiary of OHM Corporation, completed whatever landfill construction activities it could by December 22, 1995, but weather conditions minimized work efforts toward the end of December. OHM was on site the first half of January 1996 to demobilize equipment and remove/relocate the site trailers. The resurfacing of Old Gurnet Road, the placement of the asphalt surface on the Weapons Compound Road, and the placement of additional topsoil and hydroseeding of the disturbed areas, as well as other punchlist items, will be taken care of in the spring of 1996 as indicated by the current schedule.

If you have any questions concerning the enclosed, please call me at 412/963-2300.

Very truly yours,

Joseph W. Colella, P.E.
Project Manager
