Re: Draft Proposed Remedial Action Plan Site 7 (March 2002)
Naval Air Station, Brunswick, Maine

Dear Mr. Monaco:

Thank you for the revised draft Proposed Remedial Action Plan for Site 7 (March 2002 version). Most of Maine Department of Environmental Protection's (MEDEP) previous comments were incorporated. Additional editing comments were transmitted directly to the Navy's consultant today. However there is one remaining comment.

The Navy is proposing a radius of 150 feet from MW-NASB-099. Since the proposed area within the Institutional Control Boundary is not clearly delineated with a road or some other non moveable marker it will be necessary to establish the area using metes and bounds and install permanent markers. Therefore the Navy may want to consider using a square rather than a circle. Markers could be easily placed on the four corners.

MEDEP also requested that a map showing the location of the institutional control area in relationship to Site 7 be included in the PRAP.

MEDEP is looking forward to seeing the last version of the PRAP prior to issuance. Thank you for the opportunity to comment on this document. If you have any questions or comments please call me at (207) 287-7713.

Respectfully,

Claudia Sait
