Re: Final Long Term Monitoring Plan (LTMP) for Site 9, Naval Air Station, Brunswick, Maine

Dear Mr. Klawitter:

The EPA has reviewed and concurs with the above document. Our concerns with the draft final LTMP as denoted in our comment letter have been satisfactorily addressed by the Navy and incorporated into the final LTMP where appropriate.

The LTMP is a key element of the remedial action specified in the Record of Decision (ROD) for site 9 that was signed last month. As the National Contingency Plan allows up to 15 months to implement remedial action, we appreciate the Navy for all its' work on submitting the LTMP for review early.

We also acknowledge receiving another key element of the remedial action at site 9, the Base Operating Instructions which set the institutional controls at site 9. This document is under review by myself and the case attorney and will be commented upon separately.

I look forward to working with you in the future on site 9 and NAS Brunswick. If you have any questions, please contact me at 617-918-1344 or barry.michael@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "MS Barry", written over a horizontal line.

Michael S. Barry
