Ms. Claudia Sait  
Maine Department of Environmental Protection  
Bureau of Remediation and Waste Management  
State House, Station 17  
Augusta, Maine 04333-0017

Dear Ms. Williams and Ms. Sait:

**SUBJECT:** Status of Soil Piles at Site 9, Naval Air Station Brunswick, ME

This letter is to provide interim status of Navy efforts to resolve issues relative to the stockpiled soil material raised in various communications as well as Ms. Sait's letter dated August 2, 2006.

The contractor has completed measures to ensure that the site is secured for the duration of the work suspension, including covering the waste piles with tarps, proper signage, and erosion prevention measures. He is inspecting the site and will be required to maintain these measures and the physical security of the site. The Navy is also performing regular site inspections and will ensure that the contractor adequately maintains these measures.

As you requested, we are pursuing through contract modifications, disposal of the one segregated stockpile identified as hazardous waste and the water currently held in on-site tanks. I do expect to have the contractor's submission for your review next week, which will address re-sampling efforts and hazardous waste handling and disposal. Once the contractor has received notice to proceed, we will provide adequate notification of the contractor's sampling schedule for this work and the future sampling events at Site 9.

If you have any questions or comments, please contact me at (215) 897-4915 or Lonnie Monaco at (215) 897-4911.

Sincerely,

A handwritten signature in cursive script that reads "Dawn Kincaid".
