Re: *Final 2000 Annual Report and Monitoring Event 14 Report (October 2001), Building 95,
Naval Air Station Brunswick, Maine*

Dear Mr. Monaco

Thank you for the above reports, which were received directly from EA Engineering, Science and Technology on behalf of the Navy.

Monitoring Event 14 Report - October 2001.

EPA notes the results obtained, but has no comment at this time. We will reserve comments on overall trends, etc for the 2001 Annual Report

Final 2000 Annual Report

- 1 EPA and MEDEP comments to the draft report (dated 11/5/2001 and 1/8/2002 respectively) and the Navy's responses to comments should be included in the back of future reports. In this case, this would have been a "pro forma" exercise as EPA's comments were non substantive and we understand that the final report addressed or incorporated all of MEDEP's comments.
- 2 As stated in our letter of 11/5/2001, EPA concurs to the proposed changes of dropping VOCs and SVOCs from the monitoring program and adding the "second round" of pesticides due to the detection of heptachlor epoxide in one well above the MEG.

For any questions, please contact me at 617 918 1344 or barry.michael@epa.gov

Sincerely,

Michael S. Barry
Remedial Project Manager
Federal Facilities Superfund Section
