Bureau of Remediation and Waste Management
17 State House Station
Augusta, ME 04333-0017

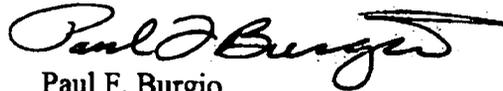

**SUBJECT: SUSPENSION OF 2008 LONG-TERM MONITORING PROGRAM,
SITE 17 - BUILDING 95, NAVAL AIR STATION BRUNSWICK,
MAINE**

Dear Mr. Daly and Ms. Sait:

As discussed during the Naval Air Station Brunswick (NASB), Maine conference call among the project stakeholders (US EPA, MEDEP and Navy) on 5 February 2008, and presented in Site 17 Monitoring Event Nos. 25 (April 2007) and 26 (September 2007) Reports to discontinue sampling, the Navy is seeking to suspend the Long-Term Monitoring Program (LTMP) sampling during 2008 at Site 17, Building 95. The US EPA and MEDEP representatives agreed to the suspension of the LTM Program at Site 17 during 2008; however, they requested the Navy's request be put in writing regarding the LTMP suspension. In addition, the regulators stated that the suspension of the Site 17 LTM Program will be reviewed in December 2008 to determine if the LTM Program should resume in 2009.

If you have any questions concerning this correspondence, please contact Mr. Todd Bober at (215) 897-4911.

Sincerely,

Paul F. Burgio
BRAC Environmental Coordinator
By direction of BRAC PMO
