## LEGAL NOTICES

The U.S. Department of Energy has initiated a Five-Year Review for the Brookhaven National Laboratory Site. The U.S. Department of Energy is conducting a Five-Year Review for the Brookhaven National Laboratory (BNL) site, as required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This review serves to ensure that the implementation and performance of the selected cleanup remedies continue to be effective in protecting human health and the environment. This is

information on and off of BNL property, excavation and disposal of contaminated soils and river sediments, removal of above- and below-ground storage tanks, capping of landfills, and response actions for the former Brookhaven Graphite Research Reactor. Land-use restrictions are in place to ensure that any contamination left in place is not dispersed and does not adversely affect human health or the environment. Information on the selected remedies at BNL as well as the status of remediation activities at the site is available on the BNL website located at

remedies, a report summarizing the results will be prepared. The draft Five-Year Review is expected to be available to the public in the fall of 2005.

If there is a need for further information regarding this Five-Year Review, please send an email to [lj@DOE@bnl.gov](mailto:lj@DOE@bnl.gov), fax to (631) 344-3444, or write to:
