Dear Mr. Colter:

Re: Calverton NWIRP Site ID No. 152136

As you requested, our Region 1 Air Resources staff has reviewed the information provided by the Navy to reactivate the air sparging/soil vapor extraction system installed at the Fire Training Area. Based on this review, there are no controls required since the air emissions are below the Air Guide 1 values.

If you have any questions, please call me at (518) 457-3976.

Sincerely,

Jeffrey McCullough
Bureau of Eastern Remedial Action
Division of Environmental Remediation
