Nancy Redgate ERRB  
U.S. EPA SF Program  
345 Courtland Street  
Atlanta, GA 30365

Dear Ms. Redgate:

The Superfund Amendments and Reauthorization Act of 1986 requires federal agencies to submit Preliminary Assessments (PAs) by April 17, 1988 for those facilities listed on the Hazardous Waste Compliance Docket. The enclosed documents meet this requirement for the following facilities:

Naval Ordnance Station Louisville, KY  
Marine Corps Air Station Cherry Point, NC  
Marine Corps Auxiliary Landing Field Burn Pit, MCALF Bogue, Morehead City, NC  
Marine Corps Air Station New River, Jacksonville, NC

For each facility we are enclosing an Initial Assessment Study (IAS) prepared under the Navy Installation Restoration Program. These reports are essentially equivalent to your PAs. To ensure you have all the information necessary for scoring these sites, we are also enclosing draft HRS worksheets and supporting documentation. One scoring package was completed for each site recommended in the IAS for a Confirmation Study (RI/FS) or for mitigative measures.

We are not submitting a package for the Marine Corps Base Camp Lejeune, as we understand that facility has already been scored and will be proposed for the National Priorities List shortly. Although we are submitting data for the Marine Corps Air Station New River, which was listed separately on the docket, the air station property and facilities are owned by Camp Lejeune; consequently, we believe both should be included in the initial NPL listing for MCB Camp Lejeune.

Please address any questions you may have on the enclosures to Cheryl Barnett, (804) 445-1814.

Sincerely,

J. R. BAILEY, P.E.  
Head, Environmental Quality Branch  
Utilities, Energy and Environmental  
Division  
By direction of the Commander
