Randy, please see the attached reply to the RTCs from David Lilley's review of the Ecological risk assessment for the draft SWMU 303/318 RFI report, and let us know if this reply doesn't satisfy the State's concern on this issue. We will proceed with finalizing the report unless we hear otherwise.

 Jim, could you please review and revise the RTCs if  
 needed?  
 Thanks  
 Louise

Louise,

Please see the attached comments on the Ecological and Human Health Risk  
Assessment at SWMU 303/318.

If you have any questions please reply to David Lilley.

Randy McElveen, NC Superfund Section

RE: Response to Response to Comments on the Ecological  
Risk Assessment portions of the Draft – SWMU 303/318  
RCRA Facility Investigation Report, MCB Camp Lejeune,  
NC

December 19, 2005

1. Response to comment 2: The screening levels as they appear in the 2003 DENR guidance have been reviewed by NC DENR and US EPA Region 4 and are appropriate for use as is in Step 2 of the ERA process. Please use them as such.

RESPONSE: Screening values provided by NC DENR (2003) for total chlorobenzenes, total monochlorophenols, total polycyclic aromatic hydrocarbons, and total phthalates will be used as surrogates for individual chemicals belonging to these chemical classes in Step 2 of the ERA as requested. Tables, Figures, and text will be edited accordingly.
